**This Notice of Annual Meeting of Stockholders, Proxy Statement and accompanying proxy card
are being distributed on or about September 7, 2012**

General Information

Your vote is very important. For this reason, the Board of Directors of Peregrine Pharmaceuticals, Inc., a Delaware corporation (referred to as “we,” “us,” “our,” “Company,” or “Peregrine”), is soliciting your proxy to vote your shares of common stock at the 2012 Annual Meeting of Stockholders (the “Annual Meeting”), or at any continuation, postponement or adjournment thereof, for the purposes discussed in this Proxy Statement and in the accompanying Notice of Annual Meeting and any business properly brought before the Annual Meeting.

Why am I receiving these materials?

Proxies are solicited to give all stockholders of record an opportunity to vote on matters properly presented at the Annual Meeting. This Proxy Statement is being sent to all stockholders of record as of the close of business on August 22, 2012 in connection with the solicitation of proxies on behalf of the Board of Directors for use at the 2012 Annual Meeting of Stockholders to be held on October 18, 2012. We intend to commence mailing this Proxy Statement and accompanying proxy card on or about September 7, 2012 to all stockholders entitled to vote at the Annual Meeting.

Our Financial Information

The Annual Report to Stockholders of the Company for the fiscal year ended April 30, 2012, including audited consolidated financial statements, has been mailed to stockholders concurrently herewith, but such report is not incorporated in this Proxy Statement and is not deemed to be a part of the proxy solicitation material.

Why did I receive a one-page Notice in the mail regarding the Internet availability of proxy materials this year instead of printed proxy materials?

In accordance with the rules of the Securities and Exchange Commission (“SEC”), instead of mailing a printed copy of our proxy materials to all of our stockholders, we have elected to furnish such materials to selected stockholders by providing access to these documents over the Internet. Accordingly, on or about September 7, 2012, we will send a Notice of Internet Availability of Proxy Materials (the “Notice”) to selected stockholders of record and beneficial owners. These stockholders have the ability to access the proxy materials on a website referred to in the Notice or request to receive a printed set of the proxy materials by calling the toll-free number found in the Notice. The Company encourages you to take advantage of the availability of the proxy materials on the Internet in order to help reduce the environmental impact of the Annual Meeting.

How can I get electronic access to the proxy materials?

The Notice provides you with instructions regarding how to: (1) view our proxy materials for the Annual Meeting on the Internet; (2) vote your shares after you have viewed our proxy materials; (3) request a printed copy of the proxy materials; and (4) instruct us to send our future proxy materials to you.

Who is eligible to vote?

Stockholders of Peregrine, as recorded in our stock register at the close of business on August 22, 2012, can vote at the Annual Meeting. Each share of Peregrine’s common stock is entitled to one vote. As of August 22, 2012, there were [_____] shares of our common stock outstanding and entitled to vote.

How do I vote?

There are three ways to vote by proxy:

- (1) by internet;
- (2) by telephone; or
- (3) by mail.

If you vote by telephone or via the Internet, please do not return a signed proxy card. If you choose to vote by mail, mark your proxy card enclosed with the Proxy Statement, date and sign it, and mail it in the postage-paid envelope.

You may also vote in person at the Annual Meeting. We recommend you vote by proxy even if you plan to attend the meeting. You can always change your vote at the Annual Meeting. Please note, however, that if your shares are held of record by a broker, bank, or other nominee and you wish to vote in person at the meeting, you must obtain a legal proxy issued in your name from such broker, bank or other nominee.

Who pays the cost of proxy solicitation?

Our Board of Directors is soliciting the enclosed proxy. We will make proxy solicitations by electronic or regular mail and we will bear the costs of this solicitation. We will request banks, brokerage houses, nominees and other fiduciaries nominally holding shares of our common stock to forward the proxy soliciting materials to the beneficial owners of such common stock and to obtain authorization for the execution of proxies. We will, upon request, reimburse such parties for their reasonable expenses in forwarding proxy materials to the beneficial owners. In addition, we have also retained Georgeson, Inc. to aid in the solicitation and will pay a fee of approximately \$10,000 for their services, plus reasonable and approved out-of-pocket expenses.

What is a proxy?

Giving us your proxy means you authorize us to vote your shares at the meeting in the manner you direct. You may vote for all, some or none of our director candidates. You may also vote for or against the other proposals or abstain from voting.

How do I specify how I want my shares voted?

If you are a registered stockholder, you can specify how you want your shares voted on each proposal by marking the appropriate boxes on the proxy card. Please review the voting instructions on the proxy card and read the entire text of the proposals and the positions of the Board of Directors in the Proxy Statement prior to marking your vote.

If your proxy card is signed and returned without specifying a vote or an abstention on a proposal, it will be voted according to the recommendation of the Board of Directors on that proposal. That recommendation is shown for each proposal on the proxy card.

How do I vote if I am a beneficial stockholder?

If you are a beneficial stockholder, you have the right to direct your broker or nominee on how to vote the shares. You should complete a Voting Instruction Card which your broker or nominee is obligated to provide you. If you wish to vote in person at the meeting, you must first obtain from the record holder a proxy issued in your name.

Brokerage firms have the authority under the NASDAQ Stock Market rules to vote shares on routine matters for which their customers do not provide voting instructions.

What are the Board of Directors' voting recommendations?

For the reasons set forth in more detail later in the Proxy Statement, our Board of Directors recommends that you vote for the proposals as follows:

FOR:

- the election of our four directors;
- the ratification of the Audit Committee's appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2013;
- the approval of an amendment to our 2011 Stock Incentive Plan to increase the number of shares available for issuance under the 2011 Stock Incentive Plan; and
- the approval, on an advisory basis, of the compensation of the named executive officers.

Can I revoke a proxy?

To revoke your proxy if you are a stockholder of record, you must advise our Secretary in writing before the meeting, deliver a validly executed proxy with a later date that we receive prior to the meeting, or attend the meeting and vote your shares in person. You may revoke your proxy at any time before your shares are voted. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

What is a quorum?

In order to carry on the business of the meeting, we must have a quorum. This means that at least a majority of the outstanding shares eligible to vote on the record date must be present at the meeting, either by proxy or in person. Abstentions and broker non-votes are counted as present at the meeting for determining whether we have a quorum. A broker non-vote occurs when a broker returns a proxy but does not vote on a particular proposal because the broker does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner.

What are "broker non-votes"?

Broker non-votes occur when nominees, such as banks and brokers holding shares on behalf of beneficial owners, do not receive voting instructions from the beneficial holders at least ten days before the meeting. If that happens, the nominees may vote those shares only on matters deemed "routine" by the New York Stock Exchange ("NYSE"), such as the ratification of auditors. Nominees cannot vote on non-routine matters unless they receive voting instructions from beneficial holders, resulting in so-called "broker non-votes." The effect of "broker non-votes" on each of the proposals that will be considered at the Annual Meeting is described below and in our proxy statement.

The election of directors is not considered to be a "routine" matter and brokers are no longer permitted to vote in the election of directors if the broker has not received instructions from the beneficial owner. Accordingly, it is particularly important that beneficial owners instruct their brokers how they wish to vote their shares.

We believe that the proposal for the ratification of our independent registered public accounting firm is considered to be a "routine" matter, and hence we do not expect that there will be a significant number of "broker non-votes" on such proposal.

The proposal to elect directors, the proposal to amend the 2011 Stock Incentive Plan and the proposal to approve, on an advisory basis, of the compensation of the named executive officers, are non-routine and the record owner may not vote your shares on any of these proposals if it does not get instructions from you. If you do not provide voting instructions on these three matters, a broker non-vote will occur. Broker non-votes, as well as "ABSTAIN" votes, will each be counted towards the presence of a quorum but will not be counted towards the vote total for any Proposal, other than Proposal No. 2.

How many votes are needed to have the proposals pass?

For the reasons set forth in more detail later in the Proxy Statement, our Board of Directors recommends that you vote "For" for the following proposals:

- Proposal No. 1 - the election of our four directors;
- Proposal No. 2 - the ratification of the Audit Committee's appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2013;
- Proposal No. 3 - the approval of an amendment to our 2011 Stock Incentive Plan to increase the number of shares available for issuance under the 2011 Stock Incentive Plan; and
- Proposal No. 4 - to approve, on an advisory basis, the compensation of the named executive officers.

The Board of Directors will be elected by a favorable vote of a plurality of the shares of common stock present and entitled to vote, in person or by proxy, at the Annual Meeting. Accordingly, abstentions and "broker non-votes" (see above) as to the election of directors will not be counted in determining which nominees received the largest number of votes cast.

In order for Proposal Nos. 2, 3, and 4 to pass, the affirmative vote of a majority of the shares present in person or by proxy and entitled to vote at the Annual Meeting is required for each. Only proxies and ballots indicating votes "FOR," "AGAINST" or "ABSTAIN" on the proposals or providing the designated proxies with the right to vote in their judgment and discretion on the proposals are counted to determine the number of shares present and entitled to vote. Broker non-votes will have no effect on the result of the vote on Proposal Nos. 3 and 4 although they will count toward the presence of a quorum. Abstentions as to a proposal will have the same effect as votes against a proposal.

How are the votes counted?

All votes will be tabulated by the inspector of election appointed for the Annual Meeting who will separately tabulate affirmative and negative votes and abstentions. Any information that identifies a stockholder or the particular vote of a stockholder is kept confidential.

What is "Householding" of annual meeting materials?

Some banks, brokers and other nominee record holders may be "householding" our proxy statements and annual reports. This means that only one copy of our proxy statement and annual report to stockholders may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you if you call or write us at our principal executive offices, 14282 Franklin Avenue, Tustin, California, 92780, Attn: Investor Relations, telephone: (800) 987-8256. If you want to receive separate copies of the proxy statement or annual report to stockholders in the future, or if you are receiving multiple copies and would like to receive only one copy per household, you should contact your bank, broker, or other nominee record holder, or you may contact us at the above address and telephone number.

**PROPOSAL NO. 1:
ELECTION OF DIRECTORS**

The first proposal on the agenda for the Annual Meeting will be electing four directors to serve until the next annual meeting or until their successors are elected. There are four nominees for the four currently authorized seats on our Board of Directors. Unless authority to vote for directors has been withheld in the proxy, the persons named in the enclosed proxy intend to vote at the Annual Meeting FOR the election of the nominees presented below.

Under Delaware law, the four nominees receiving the highest number of votes will be elected as directors at the Annual Meeting. As a result, proxies voted to "Withhold Authority" and broker non-votes will have no practical effect.

Each person nominated for election is currently serving as a director of Peregrine and each nominee has consented to serve as a director for the ensuing year. If any nominee becomes unavailable to serve for any reason before the election, then the enclosed proxy will be voted for the election of such substitute nominee, if any, as shall be designated by the Board of Directors. The Board of Directors has no reason to believe that any of the nominees will become unavailable to serve.

Information with respect to the number of shares of common stock beneficially owned by each director as of August 16, 2012 appears under the heading "Security Ownership of Certain Beneficial Owners, Directors and Management." The name, age, years of service on our Board of Directors, and principal occupation and business experience of each director nominee is set forth below.

Board of Directors

Our business is managed under the direction of our Board of Directors pursuant to the Delaware General Corporation Law and our Bylaws. Our Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance. Among the primary responsibilities of our Board of Directors is the oversight of the management of our Company. Our directors remain informed of our business and management's activities by reviewing documents provided to them before each board meeting and by attending presentations made by our chief executive officer and other members of management. The Board of Directors held five (5) formal meetings during the fiscal year ended April 30, 2012. Each incumbent director attended at least seventy-five percent (75%) of the meetings of the Board and of the committees on which he served during the fiscal year ended April 30, 2012. In addition, members of the Board of Directors have access to our books, records and reports and independent auditors and advisors. Members of our management frequently interact with and are at all times available to our directors.

Director Independence

Under NASDAQ Marketplace Rule 5605(a)(2), a director will not be considered an "independent director" if, such director at any time during the past three years was an employee of the Company, or if a director (or a director's family member) accepted compensation from the Company (other than compensation for board or board committee service) in excess of \$120,000 during any twelve consecutive month period within the three years preceding the determination of independence. In addition, a director will not qualify as an "independent director" if, in the opinion of our Board of Directors, that person has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Our Board of Directors has determined that each of the current directors, as well as those standing for re-election, are independent directors as defined by the NASDAQ Marketplace Rules governing the independence of directors, except for Steven W. King, our President and Chief Executive Officer.

Our Audit, Compensation and Nominating Committees are composed entirely of independent directors as required by applicable Securities and Exchange Commission ("SEC") and NASDAQ rules, including Rule 10A-3 under the Exchange Act of 1934, as amended (the "Exchange Act"). In addition, there are no family relationships among any of the directors or executive officers of the Company.

Meetings of Independent Directors

The independent members of our Board of Directors have a practice of meeting in executive sessions without the presence of any members of Peregrine's management. The independent members of the Board of Directors are scheduled to meet each time the Board holds its regularly scheduled meetings.

Committees of Our Board of Directors

The Board of Directors has three standing committees: the Audit Committee, the Compensation Committee, and the Nominating Committee. Each of the three committees maintains a written charter approved by the Board of Directors. The following is a summary of our three standing committees:

Compensation Committee. The primary purpose of the Compensation Committee of the Board of Directors is to: (i) establish the compensation policy of the Company; (ii) ensure that the compensation of the Board of Directors, Chief Executive Officer and other corporate officers of the Company enables it to attract and retain high-quality leadership and is consistent with such policy; (iii) review the performance and development of the Company's Chief Executive Officer and other corporate officers in achieving Company goals and objectives and to ensure that senior executives of the Company are compensated effectively in a manner consistent with the strategy of the Company; and (iv) produce an annual report on executive compensation for inclusion in the Company's proxy statements, in accordance with applicable rules and regulations. The Compensation Committee met three (3) times during the fiscal year ended April 30, 2012. The Compensation Committee has the authority to determine director and executive compensation and may not delegate this authority. The Compensation Committee's members are currently Mr. Eric S. Swartz (chairman of the committee), Mr. Carlton M. Johnson, Jr. and Mr. David H. Pohl. Each of these members is independent under NASDAQ listing standards currently in effect. In addition, each member is a "non-employee director" under Section 16 of the Exchange Act and an "outside director" for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code").

Audit Committee. The Audit Committee has the sole authority for the appointment, compensation and oversight of the work of the independent auditors, and responsibility for reviewing and discussing, prior to filing or issuance, with management and the independent auditors (when appropriate) the Company's audited consolidated financial statements included in its Annual Report on Form 10-K. The Audit Committee carries out its responsibilities in accordance with the terms of its charter. The Audit Committee met three (3) times during the fiscal year ended April 30, 2012. The Audit Committee of our Board of Directors has determined that Mr. Carlton M. Johnson, Jr. is an "audit committee financial expert" as defined by the Securities and Exchange Commission ("SEC") and is independent under the current listing standards of NASDAQ. The Audit Committee meets the NASDAQ composition requirements, including the requirements regarding financial literacy and financial sophistication. The current Audit Committee members are Mr. Carlton M. Johnson, Jr. (chairman of the committee), Mr. David H. Pohl and Mr. Eric S. Swartz. Each of these members is independent under NASDAQ listing standards currently in effect.

Nominating Committee. The primary purpose of the Nominating Committee of the Board is to (i) make recommendations to the Board regarding the size of the Board, (ii) make recommendations to the Board regarding criteria for the selection of director nominees, (iii) identify and recommend to the Board for selection as director nominees individuals qualified to become members of the Board, including stockholder recommendations, and (iv) recommend committee assignments to the Board. The qualities and skills sought in prospective members of the Board will be determined by the independent directors. Generally, director candidates must be qualified individuals who, if added to the Board, would provide the mix of director characteristics, experience, perspective and skills appropriate for the Company. Criteria for selection of candidates will include, but not be limited to: (i) business and financial acumen, as determined by the committee in its discretion, (ii) qualities reflecting a proven record of accomplishment and ability to work with others, (iii) knowledge of the Company's industry, (iv) relevant experience and knowledge of corporate governance practices, and (v) expertise in an area relevant to the Company. The Nominating Committee does not have a written policy with respect to Board diversity; however, the committee's goal is to assemble a Board that brings to the Company a diversity of knowledge, skills and expertise derived from high quality business and professional experience. We believe a Board with these attributes leads to improved company performance by encouraging new ideas and perspectives and expanding the knowledge base available to management. The Nominating Committee met two (2) times during the fiscal year ended April 30, 2012. The Nominating Committee's members are Mr. David H. Pohl (chairman of the committee), Mr. Carlton M. Johnson, Jr. and Mr. Eric S. Swartz. Each of these members is independent under NASDAQ listing standards currently in effect.

Board Leadership Structure

Our Board of Directors does not have a policy on whether the same person should serve as both the Chief Executive Officer and Chairman of the Board or, if the roles are separate, whether the Chairman should be selected from the non-employee directors or should be an employee. The Board of Directors believes that it should have the flexibility to make these determinations in the way that it believes best provides appropriate leadership for the Company at a given time. The Board believes that its current leadership structure, with Mr. King serving as President and Chief Executive Officer and Mr. Johnson serving as Chairman is appropriate for the Company at this time. Both leaders are actively engaged on significant matters affecting the Company. The Chief Executive Officer has overall responsibility for all aspects of the Company's operation, while the Chairman has a greater focus on governance of the Company, including oversight of the Board of Directors. We believe this balance of shared leadership between the two positions is a strength for the Company.

Risk Oversight

The Board oversees an enterprise-wide approach to risk management that is designed to support the achievement of organizational objectives to improve long-term performance and enhance stockholder value. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for the Company. In setting the Company's business strategy, the Board assesses the various risks being mitigated by management and determines what constitutes an appropriate level of risk for the Company.

While the Board has the ultimate oversight responsibility for the risk management process, various committees of the Board also have responsibility for risk management. In particular, the Audit Committee focuses on financial risk, including internal controls, and receives financial risk assessment reports from management. Risks related to the compensation programs are reviewed by the Compensation Committee. The Board is advised by these committees of significant risks and management's response via periodic updates.

Communicating with the Board of Directors

Under our Code of Business Conduct and Ethics, we have established an Open Door Policy and Hotline for the confidential, anonymous submission by our directors, officers and employees of concerns regarding violations or suspected violations of our Policy on Business Conduct and Ethics, including matters relating to accounting and auditing matters. In addition, the Audit Committee has established procedures for the receipt, retention and treatment of communications received by us, our Board of Directors and the Audit Committee regarding accounting, internal controls or auditing matters. Written communications from our stockholders and employees may be sent to: Peregrine Pharmaceuticals, Inc., Attention: Audit Committee Chair, 14282 Franklin Avenue, Tustin, California 92780.

In addition, the Company's annual meeting of stockholders provides an opportunity each year for stockholders to ask questions of or otherwise communicate directly with members of the Board on appropriate matters. In addition, stockholders may communicate in writing with any particular director, or the directors as a group, by sending such written communication to: Board of Directors, Attention: Corporate Secretary, Peregrine Pharmaceuticals, Inc., 14282 Franklin Avenue, Tustin, California 92780. Copies of written communications received at such address will be provided to the Board or the relevant director unless such communications are considered, in the reasonable judgment of the Secretary, to be inappropriate for submission to the intended recipient(s). Examples of stockholder communications that would be considered inappropriate for submission to the Board include, without limitation, customer complaints, solicitations, communications that do not relate directly or indirectly to the Company's business or communications that relate to improper or irrelevant topics.

Director Attendance at Annual Meetings of Stockholders

We have no policy requiring directors to attend annual meetings of stockholders, but directors are encouraged to attend our annual meetings at which they stand for re-election.

PROPOSAL NO. 2: RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The next proposal on the agenda for the Annual Meeting will be ratifying the Board's appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for current fiscal year ending April 30, 2013. Our Board of Directors, upon the recommendation of its Audit Committee, has ratified the selection of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2013, subject to ratification by our stockholders. Ernst & Young LLP has served in this capacity for each of the twelve (12) years ended April 30, 2012, and has reported on the Company's fiscal year 2012 consolidated financial statements. During the twelve (12) fiscal years ended April 30, 2012, there were no disagreements between the Company and Ernst & Young LLP on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure. The Audit Committee recommended to the Board that Ernst & Young LLP be re-appointed for fiscal year 2013.

Representatives of Ernst & Young LLP are expected to be present at the meeting with the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Stockholder ratification of the selection of Ernst & Young LLP as the Company's independent auditors is not required by the Bylaws or otherwise. However, the Board is submitting the selection of Ernst & Young LLP to the stockholders for ratification as a matter of corporate practice. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and its stockholders.

Recommendation

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL NO. 2 TO RATIFY THE APPOINTMENT OF ERNST & YOUNG LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2013.

Independent Registered Public Accounting Firm Fees

	2012	2011
Audit fees	\$ 353,000	\$ 333,000
Audit related fees	-	-

All other fees	2,000	2,000

Audit fees pertain to the audit of our annual consolidated financial statements for fiscal years 2012 and 2011, including attestation services relating to the report on our internal controls in accordance with Section 404 of the Sarbanes-Oxley Act of 2002, and timely reviews of our quarterly consolidated financial statements, consents, comfort letters, and review of documents filed with the Securities and Exchange Commission ("SEC"), including registration statements on Form S-3 and Form S-8.

Tax fees relate to tax compliance services rendered in the preparation of our tax returns.

All other fees are attributable to the Company's subscription to an Ernst & Young LLP online service used for accounting research purposes for fiscal years 2012 and 2011.

Pre-Approval Policy for Services Provided by our Independent Registered Public Accounting Firm

The Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by our independent registered public accounting firm consistent with applicable SEC rules. From and after the effective date of the SEC rule requiring Audit Committee pre-approval of all audit and permissible non-audit services provided by an independent registered public accounting firm, the Audit Committee has pre-approved all audit and permissible non-audit services provided by Ernst & Young LLP.

Ernst & Young LLP did not perform any professional services with respect to information systems design and implementation for the years ended April 30, 2012 and 2011. The Audit Committee has considered whether the services provided by Ernst & Young LLP are compatible with maintaining that firm's independence.

Report of the Audit Committee of the Board of Directors (*)

Each year, the Board of Directors appoints an Audit Committee to review the Company's financial matters. We operate pursuant to a written Audit Committee Charter adopted by the Board of Directors. In accordance with the Audit Committee Charter, we must meet the independence requirements and other criteria set by the NASDAQ Marketplace Rules as currently in effect. As part of our oversight of our Company's financial statements, our Chairman of the Audit Committee reviews and discusses with both management and Ernst & Young LLP all annual and quarterly financial statements prior to their issuance. In addition, our responsibilities include recommending to the Board an accounting firm to be hired as the Company's independent registered public accounting firm. We are also responsible for recommending to the Board that the Company's financial statements be included in its Annual Report. We have taken the following steps in making our recommendation that the Company's financial statements be included in its Annual Report:

1. The Audit Committee discussed with Ernst & Young LLP, the Company's independent registered public accounting firm, for fiscal year ended April 30, 2012, those matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1. AU section 380), and as adopted by the Public Company Accounting Oversight Board, or PCAOB, in Rule 3200T, including information regarding the scope and results of the audit. These communications and discussions are intended to assist the Audit Committee in overseeing the financial reporting and disclosure process.

2. The Audit Committee discussed with Ernst & Young LLP its independence and received from Ernst & Young LLP a letter concerning independence as required under applicable independence standards for auditors of public companies. This discussion and disclosure helped the Audit Committee in evaluating such independence.
3. The Audit Committee reviewed and discussed with the Company's management and Ernst & Young LLP, the Company's audited consolidated balance sheet at April 30, 2012, and consolidated statements of operations, cash flows and stockholders' equity for the fiscal year ended April 30, 2012.

Based on the reviews and discussions explained above, the Audit Committee recommended to the Board that the Company's financial statements be included in its Annual Report for its fiscal year ended April 30, 2012. The Audit Committee also recommended to the Board the selection of Ernst & Young LLP to serve as the Company's independent registered public accounting firm for fiscal year 2013.

** The report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.*

PROPOSAL NO. 3:
**APPROVAL OF AN AMENDMENT TO OUR 2011 STOCK INCENTIVE PLAN TO INCREASE THE
NUMBER OF SHARES AVAILABLE FOR ISSUANCE UNDER THE 2011 STOCK INCENTIVE PLAN**

Introduction

The Company's 2011 Stock Incentive Plan, which is referred to herein as the "2011 Plan," was approved by the Board of Directors in June 2011 and the Company's stockholders in October 2011. On August 13, 2012, subject to stockholder approval, the Board of Directors approved a proposal to amend the 2011 Plan in order to, among other things, increase the number of shares of our Common Stock subject to the 2011 Plan by 8,000,000 shares (as so amended, the "Amended 2011 Plan").

Description of the Amended 2011 Plan

A summary of the Amended 2011 Plan is set forth below, and the full text of the Amendment is attached hereto as Exhibit A. The following discussion is qualified in its entirety by reference to the amendment attached hereto as Exhibit A and the original text of the Amended 2011 Plan filed as Exhibit A to the Company's Definitive Proxy Statement on Schedule 14A, as filed with the Securities and Exchange Commission on August 26, 2011. Capitalized terms used below shall have the meanings ascribed to them in the Amended 2011 Plan.

General

The total number of shares of common stock that may be issued under the 2011 Plan is currently 3,500,000. If the proposal for the amendment of the 2011 Plan is approved, then the Amended 2011 Plan will authorize the issuance of up to 11,500,000 shares of common stock.

In addition to providing for an additional 8,000,000 shares of common stock, the 2011 Plan will also be amended to provide that the maximum (i) number of shares of common stock that may be granted to a participant, who is a covered employee, during any fiscal year with respect to one or more awards, shall be 500,000 shares and (ii) amount of any performance-based award that may be granted to a covered employee during any performance period is 500,000 shares or the equivalent cash value; the current limitation for each of the foregoing is 250,000.

As of August 16, 2012, we had 104,191,176 shares of our common stock issued and outstanding. The closing sale price of our common stock quoted on the NASDAQ Capital Market on August 16, 2012, was \$2.84 per share.

At August 16, 2012, an aggregate of 677,235 shares of common stock were available for grants of stock options, restricted stock awards or other forms of share-based awards under the 2011 Plan and our other outstanding stock incentive plans. Based on our estimated usage rate, we currently anticipate depleting all the shares currently available for issuance under the 2011 Plan and our other outstanding stock incentive plans during our fiscal year ending April 30, 2013. In order to continue to have an appropriate supply of shares for equity incentives to recruit, hire and retain the talent required to successfully execute our business plans, our Board of Directors believes that we will need the additional 8,000,000 shares for which we are requesting stockholder approval to be available under the 2011 Plan. While adding 8,000,000 shares to the 2011 Plan will increase the potential dilution to stockholders, our Board of Directors believes our equity compensation plans are well-managed and within the median norms for our peer group. We expect that with the additional 8,000,000 shares for which we are seeking stockholder approval, we will have sufficient shares for our equity compensation program for at least two or more fiscal years based on our historical 3-year average run rate for stock option and award grants. If the amendment to the 2011 Plan is not approved by the stockholders, share-based awards will continue to be made under the 2011 Plan and other outstanding stock incentive plans to the extent shares are available.

The following table sets forth information regarding stock option and awards granted, the run rate for each of the last three fiscal years and the average run rate over the last three years.

	Fiscal Year Ended April 30,			3-Year Average
	2012	2011	2010	
Stock options and awards granted	3,615,063	509,359	3,285,112	2,469,845
Common shares outstanding at fiscal year end	101,421,365	69,837,142	53,094,896	74,784,468
Run rate	3.56%	0.73%	6.19%	3.30%

Purpose

The Board believes that the Amended 2011 Plan will promote the success and enhance the long-term growth of Peregrine by aligning the interests of participants in the Amended 2011 Plan with those of the Company's stockholders and by providing those individuals with an incentive for outstanding performance to generate superior returns for the Company's stockholders. The Board also believes that the flexible terms and conditions of the Amended 2011 Plan, which permit the grant of various forms of equity and non-equity awards with a variety of terms and conditions, allow the Company to attract, retain and motivate individuals upon whose judgment, interest and effort the successful conduct of the Company's operation is largely dependent.

Administration

The Amended 2011 Plan will be administered by the Compensation Committee or such other committee as may be designated by the Board (the "Committee"). The Committee must be comprised of at least three (3) members of the Board. Each Committee member must be a "non-employee director" as defined in Rule 16b-3 of the Exchange Act if required to meet the conditions for exemption from Section 16(b) of the Exchange Act and an "outside director" as defined in Section 162(m) of the Code. The Committee, by majority action, is authorized to interpret the Amended 2011 Plan, to prescribe, amend, and rescind rules and regulations relating to the Amended 2011 Plan, to provide for conditions and assurances deemed necessary or advisable to protect the interests of the Company, and to make all other determinations necessary or advisable for the administration of the Amended 2011 Plan, to the extent they are not inconsistent with the Amended 2011 Plan.

The Committee will have the authority, to determine the participants who are entitled to receive awards under the Amended 2011 Plan, the types of awards, the times when awards shall be granted, the number of awards, the purchase price or exercise price, if any, the period(s) during which such awards shall be exercisable (whether in whole or in part), the restrictions applicable to awards, the form of each award agreement, and the schedule for lapse of forfeiture restrictions or restrictions on the exercisability of an award and accelerations or waivers thereof, based in each case on such considerations as the Committee deems appropriate. The Committee will not have the authority to accelerate the vesting or waive the forfeiture of any performance-based awards (as described below). Neither the award agreement or the other terms and provisions of any award must be identical for each participant.

The Committee will have the authority to modify existing awards, subject to specified provisions of the Amended 2011 Plan and the listing requirements of The Nasdaq Stock Market or such other exchange on which the Company stock is traded. The Committee will be prohibited from repricing any previously granted options or SARs without first obtaining stockholder approval.

Stock Subject to Amended 2011 Plan

A total of 11,500,000 shares of common stock are reserved for issuance under the Amended 2011 Plan, subject to stockholder approval. Notwithstanding the above, the maximum number of shares of stock that may be issued as incentive stock options under the Amended 2011 Plan shall be 11,500,000.

Subject to the express provisions of the Amended 2011 Plan, if any award granted under the Amended 2011 Plan terminates, expires, lapses for any reason, or is paid in cash, any stock subject to or surrendered for such award will again be stock available for the grant of an award under the Amended 2011 Plan. The exercise of a stock-settled SAR or broker-assisted "cashless" exercise of an option (or a portion thereof) will reduce the number of shares of stock available for issuance pursuant to the Amended 2011 Plan by the entire number of shares of stock subject to that SAR or option (or applicable portion thereof), even though a smaller number of shares of stock will be issued upon such an exercise. Also, shares of stock tendered to pay the exercise price of an option or tendered or withheld to satisfy a tax withholding obligation arising in connection with an award will not become available for grant or sale under the Amended 2011 Plan.

The maximum number of shares of common stock that may be granted to a participant, who is a covered employee, during any fiscal year with respect to one or more awards, shall be 500,000 shares.

Eligibility

All employees, officers, non-employee directors of, and consultants to, the Company or an affiliate, as determined by the Committee, are eligible to participate in the Amended 2011 Plan.

Awards Available Under the Amended 2011 Plan

The following types of awards may be granted pursuant to the Amended 2011 Plan: stock options, restricted stock rights, restricted stock, performance shares, performance share units, performance cash awards, stock appreciation rights and stock grant awards.

Stock Options. The Committee may grant incentive stock options and non-qualified stock options under the Amended 2011 Plan. Incentive stock options will be granted only to participants who are employees. The exercise price of all options granted under the Amended 2011 Plan will be at least 100% of the fair market value of Company stock on the date granted. No option may be exercised more than ten (10) years from the date of grant. The Committee will determine the methods by which the exercise price of an option may be paid, the form of payment, including, without limitation, cash, promissory note, shares of stock held for longer than six months (through actual tender or by attestation), any net-issuance arrangement or other property acceptable to the Committee (including broker-assisted "cashless exercise" arrangements), and how shares of stock will be delivered or deemed delivered to participants. A participant will have no rights as a stockholder with respect to options until the record date of the stock purchase.

Restricted Stock Rights. The Committee may grant restricted stock rights awards under the Amended 2011 Plan. A restricted stock right award gives the participant the right to receive common stock or a cash payment equal to the fair market value (determined as of a specified date) in the future. Shares of common stock are not issued under the award until specified restrictions lapse. The restrictions typically involve the achievement of specified performance targets and/or the continued employment of the participant until a specified date. Participants holding restricted stock rights have no voting rights with respect to the shares of stock subject to their restricted stock rights award.

Restricted Stock. The Committee may grant restricted stock under the Amended 2011 Plan. A restricted stock award gives the participant the right to receive a specified number of shares of common stock at a purchase price determined by the Committee (including and typically zero). Restrictions limit the participant's ability to transfer the stock and subject the stock to a substantial risk of forfeiture until specific conditions or goals are met. The restrictions will lapse in accordance with a schedule or other conditions as determined by the Committee. As a general rule, if a participant terminates employment when the restricted stock is subject to restrictions, the participant forfeits the unvested restricted stock. The Committee may, in its discretion, waive the restrictions in whole or in part, unless the restricted stock award is a performance-based award (as described below).

Performance Shares. The Committee may grant performance share awards under the Amended 2011 Plan. A performance share award gives the participant the right to receive common stock of the Company if the participant achieves the performance goals specified by the Committee during a performance period specified by the Committee. Each performance share will have a value determined by the Committee at the time of grant.

Performance Share Units. The Committee may grant performance share unit awards under the Amended 2011 Plan. A performance share unit award gives the participant the right to receive common stock of the Company, a cash payment or a combination of stock and cash, if the participant achieves the performance goals specified by the Committee during a performance period specified by the Committee. Each performance share unit will have a value determined by the Committee at the time of grant.

Performance Cash Awards. The Committee may grant performance cash awards under the Amended 2011 Plan. A performance cash award gives the participant the right to receive a cash payment if certain performance goals are satisfied during a performance period specified by the Committee.

Stock Appreciation Rights. The Committee may grant SARs under the Amended 2011 Plan. A SAR gives the participant the right to share in the appreciation in value of one share of common stock of the Company. Appreciation is calculated as the excess of (i) the fair market value of a share of common stock on the date of exercise over (ii) the price fixed by the Committee on the grant date, which may not be less than the fair market value of a share of common stock on the grant date. Payment for SARs shall be made in stock. SARs are exercisable at the time and subject to the restrictions and conditions as the Committee approves, provided that no SAR may be exercised more than ten (10) years following the grant date.

Stock Grant Awards. The Committee may grant stock awards under the Amended 2011 Plan. A stock grant award gives the participant the right to receive, or the right to purchase at a predetermined price, shares of Common Stock free from vesting restrictions. A stock grant award may be granted or sold as consideration for past services, other consideration or in lieu of cash compensation due to any participant.

Performance-Based Awards. When the Committee grants restricted stock, restricted stock rights, performance shares, performance share units, or performance cash awards it may designate the award as a performance-based award. Options and SARs granted pursuant to the Amended 2011 Plan should, by their terms, qualify as performance-based awards. Performance-based awards are designed to qualify for the "performance-based compensation" exception to the limitations on the deduction of compensation imposed by Section 162(m) of the Code. Section 162(m) of the Code only applies to "covered employees" as that term is defined in Section 162(m) of the Code. Therefore, only covered employees are eligible to receive awards that are designated as performance-based awards. The Committee has complete discretion regarding whether to grant awards to covered employees that qualify for the "performance-based compensation" exception. The Committee may, in its discretion, grant awards under the Amended 2011 Plan to covered employees that do not qualify for the exception.

The payment of restricted stock, restricted stock rights, performance shares, performance share units, or performance cash awards that are designated as performance-based awards is contingent upon a covered employee's achievement of pre-established performance goals during a specified performance period. Performance goals are based on any one or more pre-established performance criteria. The pre-established performance criteria are limited to the following: revenue; revenue growth; earnings (including earnings before interest, taxes, depreciation and amortization); operating income; operating margin; pre- and after-tax income; cash flow (before and after dividends); cash flow per share (before and after dividends); net earnings; earnings per share; return on equity; return on capital (including return on total capital or return on invested capital); cash flow return on investment; return on assets or net assets; economic value added; share price performance; total stockholder return; improvement or attainment of corporate governance goals; attainment of regulatory approvals; attainment of clinical trial milestones; attainment of research and development milestones; contract or grant awards; regulatory inspections; improvement in or attainment of expense levels; and improvement in or attainment of working capital levels.

With respect to any performance-based award granted to a covered employee that qualifies for the “performance-based compensation” exception to the Section 162(m) limitation, the Committee has the discretion to: select the length of the performance period, the type of performance-based awards to be issued, the kind and/or level of performance goal or goals and whether the performance goal or goals apply to the Company, an affiliate or any division or business unit of any of them, or to the individual participant or any group of participants. The Committee has the discretion to decrease the amount of compensation payable pursuant to any performance-based award but may not increase the compensation payable pursuant to any performance-based award.

The performance criteria and other related aspects of the Amended 2011 Plan will be subject to stockholder approval again in 2017 if (as is currently the case) stockholder approval is then required to maintain the tax-deductible nature of performance-based compensation under the Amended 2011 Plan.

The maximum amount of any performance-based award that may be granted to a covered employee during any performance period is 500,000 shares of common stock or the equivalent cash value.

Restrictions

The Committee may impose such restrictions on any awards under the Amended 2011 Plan as it may deem advisable, including restrictions under applicable federal securities law, under the requirements of any stock exchange upon which the Company’s common stock is then listed and under any blue sky or state securities law applicable to the awards.

Change-in-Control

If a Termination of Employment (or Service) occurs with respect to an employee or non-employee director Participant for Good Reason or without Cause within two (2) years (or such other period as may be specified in the Participants employment or other agreement with the Company or its subsidiary) following a Change-in-Control, all or any portion of an Award shall automatically become immediately vested and/or exercisable and that the restrictions relating to all such Awards shall lapse. With respect to a Performance-Based Award, the award shall vest on a pro-rata basis at the end of the Performance Period based on the level of achievement of the Performance Goals applicable to such Award, as described in the Award Agreement.

Non-transferability

The Committee may, in its sole discretion, determine the right of a participant to transfer any award granted under the Amended 2011 Plan. Unless otherwise determined by the Committee, no award granted under the Amended 2011 Plan may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution or pursuant to a domestic relations order (that would otherwise qualify as a qualified domestic relations order as defined in the Code or Title I of the Employee Retirement Income Security Act of 1974, but for the fact that it relates to an award granted under the Amended 2011 Plan) in favor of a spouse, or, if applicable, until the termination of any restricted or performance period as determined by the Committee.

Adjustment Provisions

If there is a change in the outstanding shares of stock because of a stock dividend or split, recapitalization, liquidation, merger, consolidation, combination, exchange of shares, or other similar corporate change, the aggregate number of shares of stock available under the Amended 2011 Plan and subject to each outstanding award, and its stated exercise price or the basis upon which the award is measured, will be adjusted by the Committee. Moreover, in the event of such transaction or event, the Committee, in its discretion may provide in substitution for any or all outstanding awards under the Amended 2011 Plan such alternative consideration (including cash) as it, in good faith, may determine to be equitable under the circumstances and may require in connection therewith the surrender of all awards so replaced. Any adjustment to an incentive stock option shall be made consistent with the requirements of Section 424 of the Code. Further, with respect to any option or SAR that otherwise satisfies the requirements of the stock rights exception to Section 409A of the Code, any adjustment shall be made consistent with the requirements of the final regulations promulgated pursuant to Section 409A of the Code.

Amendment, Modification and Termination of Amended 2011 Plan

Subject to the Board’s right to amend or terminate the Amended 2011 Plan at any time, the Amended 2011 Plan will remain in effect until all awards issued under the Amended 2011 Plan expire, terminate, are exercised or are paid in full in accordance with the Amended 2011 Plan provisions and any award agreement. However, no award may be granted under the Amended 2011 Plan after the tenth anniversary of the date the Amended 2011 Plan is approved by the Company’s stockholders unless the stockholders of the Company vote to approve an extension of the Amended 2011 Plan prior to such expiration date.

The Board has discretion to terminate, amend or modify the Amended 2011 Plan. Any such action of the Board is subject to the approval of the stockholders to the extent required by law, regulation or the rules of any exchange on which Company stock is listed. To the extent permitted by law, the Board may delegate to the Committee or the Chief Executive Officer the authority to approve non-substantive amendments to the Amended 2011 Plan. Except as otherwise provided in the Amended 2011 Plan, the Board, Chief Executive Officer and the Committee may not do any of the following without stockholder approval: reduce the purchase price or exercise price of any outstanding award, including any option or SAR; increase the number of shares available under the Amended 2011 Plan; grant options with an exercise price that is below fair market value of a share of Company stock on the grant date; reprice previously granted options or SARs; or cancel any option or SAR in exchange for cash or any other award or in exchange for any option or SAR with an exercise price that is less than the exercise price for the original option or SAR.

Tax Withholding

The Company will have the power to withhold, or require a participant to remit to the Company, an amount sufficient to satisfy federal, state, and local withholding tax requirements on any award under the Amended 2011 Plan. To the extent that alternative methods of withholding are available under applicable laws, the Company will have the power to choose among such methods.

Federal Income Tax Information

The following is a brief summary of certain federal income tax consequences of certain transactions under the Amended 2011 Plan based on federal income tax laws in effect on January 1, 2012. This summary is not intended to be exhaustive and does not describe state or local tax consequences.

As a general rule, a participant will not recognize taxable income with respect to any award at the time of grant. If a participant who receives a restricted stock grant makes the election permitted by Section 83(b) of the Code, the participant will recognize income on the award at the time of grant.

Upon exercise of a non-qualified stock option, the lapse of restrictions on restricted stock, or upon the payment of SARs, restricted stock rights, performance shares, performance share units, performance cash awards, or stock grant awards the participant will recognize ordinary taxable income in an amount equal to the difference between the amount paid for the award, if any, and the fair market value of the stock or amount received on the date of exercise, lapse of restriction or payment. The Company will be entitled to a concurrent income tax deduction equal to the ordinary income recognized by the participant.

A participant who is granted an incentive stock option will not recognize taxable income at the time of exercise. However, the excess of the stock's fair market value over the option price could be subject to the alternative minimum tax in the year of exercise (assuming the stock received is not subject to a substantial risk of forfeiture or is transferable). If stock acquired upon exercise of an incentive stock option is held for a minimum of two years from the date of grant and one year from the date of exercise, the gain or loss (in an amount equal to the difference between the sales price and the exercise price) upon disposition of the stock will be treated as a long-term capital gain or loss, and the Company will not be entitled to any income tax deduction. If the holding period requirements are not met, the incentive stock option will not meet the requirements of the tax and the tax consequences described for non-qualified stock options will apply.

The final regulations promulgated under Section 409A of the Code became effective as of January 1, 2009. If certain awards fail to comply with Section 409A, a participant must include in ordinary income all deferred compensation conferred by the award, pay interest from the date of the deferral and pay an additional 20% tax. The award agreement for any award that is subject to Section 409A may include provisions necessary for compliance as determined by the Committee. The Company intends (but cannot and does not guarantee) that awards granted under the Amended 2011 Plan will comply with the requirements of Section 409A or an exception thereto and intends to administer and interpret the Amended 2011 Plan in such a manner.

Special Rules Applicable to Officers

In limited circumstances where the sale of stock that is received as the result of a grant of an award could subject an officer to suit under Section 16(b) of the Exchange Act, the tax consequences to the officer may differ from the tax consequences described above. In these circumstances, unless a special election has been made, the principal difference usually will be to postpone valuation and taxation of the stock received so long as the sale of the stock received could subject the officer or director to suit under Section 16(b) of the Exchange Act, but not longer than six months.

Tax Consequences to the Company or Its Affiliates

To the extent that a grantee recognizes ordinary income in the circumstances described above, the Company or the subsidiary for which the employee performs services will be entitled to a corresponding deduction provided that, among other things, the income meets the test of reasonableness, is an ordinary and necessary business expense, is not an “excess parachute payment” within the meaning of Section 280G of the Code and is not subject to the \$1 million deduction limit for certain executive compensation under Section 162(m) of the Code.

New Plan Benefits Table

Benefits under the Amended 2011 Plan will depend on the Committee’s actions and the fair market value of the Company’s stock at various future dates. Consequently, it is not possible to determine the future benefits that will be received by Amended 2011 Plan participants.

Vote Required

Approval of the amendment to our 2011 Stock Incentive Plan requires the affirmative vote of a majority of votes cast. Broker non-votes will not be treated as votes cast for purposes of determining approval of such proposal and will not be counted as votes for or against such proposal.

Recommendation

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE APPROVAL OF THE AMENDMENT TO THE 2011 STOCK INCENTIVE PLAN.

PROPOSAL No. 4: ADVISORY VOTE ON EXECUTIVE COMPENSATION (“SAY-ON-PAY”)

Peregrine is asking its stockholders to cast a non-binding advisory vote to approve the fiscal year 2012 compensation of our named executive officers (our “NEO’s”) listed in the “Executive Compensation — Summary Compensation Table” as disclosed in this proxy statement. This Proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on the design and effectiveness of our executive compensation programs. Peregrine currently holds “say-on-pay” votes every year and the next vote is expected to occur at next year’s 2013 Annual Meeting of Stockholders.

As described in detail under the heading “Compensation Discussion and Analysis,” our executive compensation programs are designed to attract, motivate, and retain our NEOs, who are critical to our success. Under these programs, our NEOs are rewarded for the achievement of both specific financial and strategic goals, which are expected to result in increased stockholder value. Please read the “Compensation Discussion and Analysis” and the tables and narrative that follow for additional details about our executive compensation programs, including information about the fiscal year 2012 compensation of our NEOs.

FISCAL YEAR 2012 BUSINESS HIGHLIGHTS

Our executive team continued to successfully manage our company through fiscal year 2012, and we believe the compensation program for our NEOs was instrumental in helping us achieve significant clinical and operational milestones through the appropriate setting of both corporate and individual goals under our annual incentive bonus program to our NEOs. During fiscal year 2012, we continued to expand our clinical pipeline and growing body of positive proof-of concept clinical data by diligently executing against our clinical milestones and, as a result, we believe we have positioned the Company and its two most advanced clinical programs from our oncology-focused pipeline for Phase III development. We also continued to make great strides in exploring the broadest potential of our proprietary phosphatidylserine (“PS”)—targeting platform and our family of monoclonal antibodies. In addition, due to the record breaking year for our contract manufacturing business, and our overall financing strategy, we were able to maintain a balanced financing approach to support our operations, which we expect to continue through fiscal year 2013 and beyond. Specific corporate achievements during fiscal year 2012 include, but were not limited to, the following:

- Advanced, baviximab, our first-in-class monoclonal antibody, in eight clinical trials across a wide range of oncology indications;
- Reported positive clinical proof-of-concept data from our robustly designed Phase II trial of baviximab in second-line non-small cell lung cancer (“NSCLC”), our lead indication;
- Continued advanced discussions with the U.S. Food and Drug Administration (“FDA”) surrounding next steps for the registration pathway of Cotara® for the treatment of brain cancer;
- Launched our PS-Imaging program with the filing of an exploratory Investigational New Drug Application with the FDA to advance our lead imaging agent 124I-PGN650 into clinical development for the imaging of multiple solid tumor types; and
- Reported approximately \$15 million in third-party customer revenues for our wholly-owned contract manufacturing subsidiary, Avid Bioservices, Inc. (“Avid”), representing a record revenue year for Avid.

The Compensation Committee regularly reviews the compensation programs for our NEOs to ensure that they achieve the desired goals of aligning our executive compensation structure with our stockholders’ interests and with current market practices. This includes establishing performance targets based on our strategic and operating plans. We closely monitor the compensation programs and pay levels of executives from other peer pharmaceutical and biopharmaceutical companies of similar size and complexity, so that we may ensure that our compensation programs are within the norm of market practices. This enables us to retain our executive officers in a competitive market for executive talent.

We believe that our executive compensation programs have been effective at motivating the achievement of positive results, appropriately aligning pay and performance, and enabling us to attract and retain talented executives within our industry.

ADVISORY VOTE AND BOARD RECOMMENDATION

We request stockholder approval of our fiscal year 2012 compensation of our NEOs as disclosed in this proxy statement pursuant to the SEC’s compensation disclosure rules (which disclosure includes the “Compensation Discussion and Analysis”, the compensation tables, and the narrative disclosures that accompany the compensation tables within the Executive Compensation section of this proxy statement). This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this proxy statement.

Accordingly, we ask that you vote “FOR” the following resolution at our 2012 Annual Meeting of Stockholders:

“RESOLVED, that the stockholders of Peregrine Pharmaceuticals, Inc. (the “Company”) approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company’s Proxy Statement for the 2012 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the fiscal year 2012 Summary Compensation Table and the other related tables and disclosure within the Executive Compensation section of this proxy statement.”

Approval of the above resolution requires the affirmative vote of holders of a majority of the shares present or represented by proxy and entitled to vote at the Annual Meeting. Broker non-votes will have no effect on the outcome of this Proposal.

As an advisory vote, the outcome of the vote on this Proposal is not binding upon us. However, our Compensation Committee, which is responsible for designing and administering our executive compensation programs, values the opinions expressed by our stockholders in their vote on this Proposal and will consider the outcome of this vote when making future compensation decisions for our NEOs.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE ADVISORY PROPOSAL ON EXECUTIVE COMPENSATION.

Reporting Persons are required by SEC regulations to furnish us with copies of all forms they file pursuant to Section 16(a). Based solely on our review of the copies of such reports we received, and written representations from certain Reporting Persons that no other reports were required for those persons, to the best of our knowledge, we believe that during the year ended April 30, 2012, each of the Reporting Persons met all applicable Section 16(a) filing requirements.

COMPENSATION DISCUSSION AND ANALYSIS

This compensation discussion and analysis describes the material elements of compensation awarded to, earned by, or paid to each of our Named Executive Officers, or “NEO” during fiscal year 2012 and describes our policies and decisions made with respect to the information contained in the following tables, related footnotes and narrative for fiscal year 2012. We also describe various actions regarding Named Executive Officers compensation taken before or after fiscal year 2012 when we believe it enhances the understanding of our executive compensation program.

Compensation Philosophy and Policies

Executive compensation programs affect all employees by setting general levels of compensation and helping to create an environment of goals, rewards and expectations. Because we believe the performance of every employee is important to our success, we are mindful of the effect executive compensation and incentive programs have on all of our employees.

Our Compensation Committee (the “Committee”) continuously evaluates the performance, and no less frequently than annually, determines or modifies the compensation of our Chief Executive Officer (“CEO”) and our other executive officers based upon a number of factors, including our attainment of certain corporate goals and clinical milestones approved by the Committee, individual performance and contribution towards the attainment of our corporate goals, levels of responsibility and experience, and breadth of knowledge.

The employment market for personnel and executives with experience in the biotechnology and pharmaceutical industry in Southern California is very competitive because there are several pharmaceutical, biotechnology and medical device companies in that region. The majority of our competitors in this geographic area have more resources than we do which makes it more difficult for us to hire and retain key personnel. As a result, the Committee must establish compensation packages that will enable the Company to be competitive with the local market.

Given the competitive environment in which we operate, the compensation philosophy of the Committee with respect to our executive officers, including the CEO, is:

- to maintain an overall compensation structure designed to attract, retain and motivate executives of outstanding ability who are critical to our long-term success by providing appropriate levels of risk and reward, in proportion to individual contribution and performance;
- to establish appropriate incentives to further the Company’s long-term strategic plan and to hold executives accountable, through their compensation, for their individual and corporate performance; and
- to align the interests of executives with those of the stockholders.

The CEO, who attends most meetings of the Committee, assists the Committee in determining the compensation of all other executive officers by, among other things:

- recommending appropriate base salaries of the other executive officers to the Committee;
- establishing annual individual performance objectives for the other executive officers and evaluating their performance against such objectives (the Committee reviews these performance evaluations); and
- making recommendations, from time to time, for annual or special stock grants or stock option grants (e.g., for motivational or retention purposes) to other executive officers.

The other executive officers do not have a role in determining their own compensation, other than discussing their annual individual performance objectives with the President and Chief Executive Officer.

Components of Our Executive Compensation Program

We do not have any formal or informal policy or target for allocating compensation between long-term and short-term compensation or between cash and non-cash compensation. Instead, the Committee, after reviewing information provided by an outside consulting firm and other information gathered from an outside compensation database, determines subjectively what it believes to be the appropriate level and mix of the various compensation components.

The primary elements of our executive compensation program are:

- base salary;
- annual cash bonus plan;
- equity awards (including stock option and stock awards);
- employment agreements and severance and change-in-control benefits; and
- perquisites and other benefits.

Base Salary

Base salary is used to recognize the experience, skills, knowledge and responsibilities required of all our employees, including our executives. When establishing base salaries for fiscal year 2012, the Committee considered various data regarding the base salaries of executive officers in comparable positions at other biotechnology companies. Additional factors included, but were not limited to, company size, market capitalization, stage of development of a company's products and geographic location. The Committee also considered the individual experience level and actual performance of each executive officer in light of Peregrine's needs and objectives. The Committee also reviewed an analysis from an outside compensation consulting firm, in addition to data generated from an outside compensation database, to ensure that base salaries are competitive and within the competitive range of other biotechnology companies.

Base salaries are reviewed at least annually by the Committee, and may be adjusted to realign salaries with market levels after taking into account individual responsibilities, performance and experience, subject to minimum salary requirements set forth in applicable employment agreements. Base salaries may be increased for merit reasons, based on the executive's success in meeting or exceeding individual performance objectives as well as our combined success in meeting corporate goals, including research and clinical milestones. An executive's base salary is also evaluated by reviewing the executive's other compensation components to ensure that the executive's total compensation is in line with our overall compensation philosophy as discussed above.

The following annual base salary amounts for of our Named Executive Officers for fiscal year 2012 were determined based on the "Factors for Determining Compensation", as noted below:

Named Executive Officer	Annual Base Salary(\$)
Steven W. King	429,000
Paul J. Lytle	325,812
Jeffrey L. Masten	285,000
Shelley P.M. Fussey, Ph.D	280,500
Joseph S. Shan	260,000

Annual Cash Bonus Plan

In July 2011, the Committee adopted and approved a formal Annual Cash Bonus Plan for its Named Executive Officers, or Bonus Plan, which the Committee used to determine the annual bonuses awarded to Named Executive Officers for fiscal year 2012 performance, and will use annually thereafter. The Committee may also make discretionary bonuses outside of the framework of the Bonus Plan, but in general, each participant's annual cash bonus under the Bonus Plan will be determined by multiplying the participant's annual base salary for the applicable fiscal year by (a) a target bonus percentage for such participant, generally targeted for the 50th percentile of our peer groups (b) a corporate factor ranging from 0 to 1.5, based on the Company's achievement of corporate goals, individual goals, share price performance, and other factors as determined by the Committee, including but not limited to performance of day-to-day responsibilities and participation in the achievement of the corporate goals and achievement of individual goals determined by the Committee.

The Company's corporate goals will be set at or around the beginning of each fiscal year by the Committee, based on recommendations by the Company's management. At the end of each fiscal year, the Committee will determine the corporate factor based on a quantitative and qualitative review of performance, in addition to the Company's share price performance. Each participant's individual goals will be set at the beginning of each year. A fiscal year-end evaluation of each participant may weight individual goals, and the applicable individual factor will be determined based on a quantitative and qualitative review of performance. The Committee's chair will recommend the CEO's individual goals and individual factor to the Committee and the CEO will recommend the CFO and other executive officers individual goals and individual factor to the Committee. All individual goals and individual factors will be set by the Committee.

The following table sets forth the target bonus percentage, based upon the "Factors for Determining Compensation", as noted below, of our Named Executive Officers approved by the Committee for fiscal year 2012, and their respective fiscal year 2012 cash bonuses as approved by the Committee:

Named Executive Officer	Fiscal Year 2012	Fiscal Year 2012
	Target	Bonus \$(1)
Steven W. King	60%	257,400
Paul J. Lytle	40%	130,300
Jeffrey L. Masten	N/A	142,500
Shelley P.M. Fussey, Ph.D	35%	98,200
Joseph S. Shan	35%	142,500

(1) Bonuses for Mr. King, Mr. Lytle and Dr. Fussey were based on a corporate factor of 1. Due to Mr. Shan's significant contributions in advancing Peregrine's three phase II clinical trials during the fiscal year, the Committee approved a bonus for Mr. Shan based on a corporate factor of 1.5, and exercised its discretion to approve an additional bonus amount of \$6,000. Mr. Masten received a guaranteed bonus equal to 50% of his base salary pursuant to his employment offer letter.

Equity Awards

Stock Option Awards and Grant Practices. Based on market practice and our objective to align executives' interest with those of our stockholders, we currently use stock options awards as the primary form of long-term incentive compensation for executives and other employees. In fiscal year 2012, the Committee implemented a policy of an annual broad based grant of stock option awards to our executive officers and other employees, with the grant typically occurring during May, the first month of our fiscal year. The grant date of such annual award and of other grants (i.e., for new hires) is either on the date the Committee approves the grants or on a pre-selected later date, such as a future hire date. In determining the size and types of equity grants to executive officers, the Committee considered, among other things, comparative industry data provided by its compensation consultant, our outstanding shares at the time of grant, the number and type of equity awards granted to such individuals in prior years, the equity available under our long-term incentive plan and desirable run rate and aggregate usage in the future, each executive officer's ownership in our company, our corporate performance, and each executive officer's individual performance, role and responsibilities.

The Committee exercises discretion in determining the information it considers, as well as any weighting of particular information, in determining the equity awards. The determination of equity awards is made by the Compensation Committee after evaluating the information and areas of consideration described above in their totality.

Stock Option grant information for the fiscal year ended April 30, 2012, is set forth below under "Grants of Plan-Based Awards For Fiscal Year 2012."

Stock Awards and Award Practices. In addition to stock options, we sometimes also use stock awards as a form of long-term incentive compensation for executives and other employees. Stock awards are shares of common stock that vest in accordance with the terms established by the Committee. Usually, the awards will be subject to vesting upon the Company's timely attainment of certain predetermined clinical, financial or operational milestones with specific targeted attainment dates or vest over a specific predetermined period of performance. However, the Committee at its discretion may issue discretionary stock awards that are not subject to any future vesting requirements. There were no discretionary stock award grants to our Named Executive Officers during the fiscal year ended April 30, 2012.

Employment Agreements, Severance and Change-in-Control Benefits

We have employment agreements with Messrs. Steven W. King, Paul J. Lytle, Joseph S. Shan and Dr. Shelley P.M. Fussey providing for severance payments and accelerated vesting benefits triggered by various termination events. For a description of these agreements and our potential payment obligations, please see "Overview of Employment Agreements and Potential Payments Upon Termination or Change-in-Control" and the related tabular disclosure below.

When entering into employment agreements which provide for post-termination compensation for our Named Executive Officers, the Committee considers, among multiple factors, peer company practice, retention needs and consistency of post-termination compensation among our executives. Gains from prior equity awards are not a material consideration in setting the level of such compensation. In particular, we believe such employment agreements benefit us and our stockholders by attracting and retaining executives in a marketplace where such protections are commonly offered by our peer companies. We also believe that severance protection triggered by a change-in-control allows our executives to assess a potential change-in-control objectively, from the perspective of what is best for our stockholders, without regard to the potential impact of the transaction on their own job security. Further, we believe the severance protection offered under the employment agreements are balanced with the interests of Peregrine and its stockholders, as the executives are bound by non-disclosure, non-competition, and non-solicitation arrangements and must execute a general release in favor of Peregrine as a condition to receiving benefits under these agreements. All of the Named Executive Officers are "at will" employees.

These employment agreements are subject to renewal annually and, as part of the Committee's review of all of our executive compensation practices, will be reviewed to ensure that they continue to serve our interests in retaining these key executives, remain consistent with packages offered by our peers, and provide reasonable levels of severance protection and compensation.

Perquisites and Other Benefits

We maintain broad-based benefits that are provided to all employees, including health, dental, and vision insurance, life and disability insurance, a 401(k) plan, and an Employee Stock Purchase Plan.

Under the 401(k) plan, Named Executive Officers are allowed to contribute on the same basis as other employees of the Company as determined by IRS regulations. Effective January 1, 2010, the Company has voluntarily agreed to match 50% of all employee contributions, including Named Executive Officers, of up to the first 6% of a participant's annual salary for all 401(k) plan contributions, subject to certain IRS limitations. Under the 401(k) plan, each participating employee, including Named Executive Officers, is fully vested in his or her contributions to the 401(k) plan and Company contributions to the 401(k) plan will fully vest after six years of service.

Under the Employee Stock Purchase Plan, Named Executive Officers are allowed to participate on the same basis as other employees of the Company, which allows employees on a voluntary basis to purchase shares of our common stock directly from the Company through accumulated payroll deductions, which the Company believes closely aligns the interests of participants with the interests of stockholders.

In addition, Named Executive Officers are eligible to participate in the same employee benefit plans as all other employees. The cost of health and dental insurance was 100% covered by the Company for Named Executive Officers during fiscal year 2012. In addition, all employees, including Named Executive Officers, receive one (1) times their annual salary in term-life insurance, long-term disability benefits, and vision insurance at no cost to the employee. We also provide all employees, including Named Executive Officers, the option to make pre-tax payroll deductions up to \$3,500 per year under a flexible spending account plan that can be utilized for out-of-pocket medical, dental and other allowable expenses. The Company also provides paid-time-off benefits to cover vacation and sick time and annually determined Company holidays.

During fiscal year 2012, we paid to Mr. Masten, pursuant to his employment offer letter, an aggregate of \$152,900 in relocation assistance, covering moving expenses, storage and reimbursement of loss on sale of former residence, to help offset the cost associated with his relocation to California. We expect to pay Mr. Masten up to an additional \$70,000 during fiscal year 2013 in relocation assistance.

Factors for Determining Compensation

Performance. One of the primary objectives of our compensation program is to motivate our executive officers to achieve our short and long-term strategic goals. These goals are tied to, among other things, the advancement of our product pipeline, the attainment of clinical and regulatory milestones, the development, acquisition and out-licensing of key technologies, increasing third-party customer contract manufacturing revenues and the securing of capital funding. In addition to linking compensation to the attainment of pre-approved goals, individual performance is assessed on the basis of more subjective, non-formulaic, criteria, such as:

- involvement in, and responsibility for, the development and implementation of our strategic plans and the attainment of our strategic and operating objectives;
- participation in the achievement of strategic or regulatory milestones;
- contribution to the management team and application of managerial leadership skills;
- involvement in accessing capital to fund our research and development operations and other business activities; and
- role in protecting and realizing the value of our intellectual property.

With respect to our fiscal year 2012 performance, we continued to expand our clinical pipeline and growing body of positive proof-of concept clinical data by diligently executing against our clinical milestones and, as a result, we believe we have positioned the Company and its two most advanced clinical programs from our oncology-focused pipeline for Phase III development. We also continued to make great strides in exploring the broadest potential of our proprietary phosphatidylserine (“PS”)–targeting platform and our family of monoclonal antibodies. In addition, due to the record breaking year for our contract manufacturing business, and our overall financing strategy, we were able to maintain a balanced financing approach which we expect to continue through fiscal year 2013 and beyond. Specific corporate achievements during fiscal year 2012 include, but were not limited to, the following:

- Advanced, baviximab, our first-in-class monoclonal antibody, in eight clinical trials across a wide range of oncology indications;
- Reported positive clinical proof-of-concept data from our robustly designed Phase II trial of baviximab in second-line non-small cell lung cancer (“NSCLC”), our lead indication;
- Continued advanced discussions with the U.S. Food and Drug Administration (“FDA”) surrounding next steps for the registration pathway of Cotara® for the treatment of brain cancer;
- Launched our PS-Imaging program with the filing of an exploratory Investigational New Drug Application with the FDA to advance our lead imaging agent 124I-PGN650 into clinical development for the imaging of multiple solid tumor types; and
- Reported approximately \$15 million in third-party customer revenues for our wholly-owned contract manufacturing subsidiary, Avid Bioservices, Inc. (“Avid”), representing a record revenue year for Avid.

“Say-on-Pay” Consideration. At the Company’s Annual Meeting of Stockholders held in October 2011, we conducted our first advisory vote on executive compensation, commonly referred to as a “say-on-pay” vote. The stockholders also voted on and approved a preferred frequency of every year for stockholder advisory votes on compensation of named executive officers, and, in accordance with the stockholders’ indicated preference, the Board has resolved that we will hold such advisory votes on executive compensation every year going forward until the results of the next frequency advisory vote.

As required by Section 14A of the Securities Exchange Act of 1934, as amended, at our 2011 Annual Meeting of Stockholders, our stockholders voted, in an advisory manner, on a proposal to approve our named executive officer compensation. This was our first stockholder advisory vote to approve named executive officer compensation. The proposal was approved by our stockholders, receiving approximately 75% of the vote of the stockholders present in person or represented by proxy and voting at the meeting. We considered this vote to be a ratification of our current executive compensation policies and decisions and therefore did not make any significant changes to our executive compensation policies and decisions based on the vote.

Market Benchmarks. We believe that our select peer group provides useful information to help us establish competitive compensation practices and levels of compensation that allow us to attract, retain and motivate a talented executive team and, at the same time, aligns the interests of our executives with those of our stockholders. Accordingly, in fiscal year 2012, we reviewed and compared, among other things, the total cash and long-term equity incentive compensation and the amounts of our primary executive compensation components—base salary, annual cash bonus and long-term equity awards—against comparable compensation paid within our peer group. In fiscal year 2012, we engaged an outside compensation consulting firm and also utilized EquilarInsight™ to determine a peer group of pharmaceutical and biopharmaceutical companies based on relative company size (e.g., market capitalization and number of employees), stage of development, performance and geographic location as compared to peer companies, as well as the specific responsibilities of our executives. In addition, this peer group also includes companies with which we believe we must compete for talent. The Committee intends to review and modify this peer group periodically to ensure that this list remains aligned with our size and stage of development. For fiscal year 2012, our peer group consisted of the following 28 companies:

Acadia Pharmaceuticals, Inc.	Genvec, Inc.
Affymax, Inc.	Immunomedics, Inc.

The executive employment market in the biotechnology and pharmaceutical industry in Southern California is very competitive because there are many pharmaceutical, biotechnology and medical device companies in that region, many of which are similar to us in size and stage of development. We believe our executive compensation must be competitive within such a peer group, yet fully aligned with our current stage of development and our responsibilities to stockholders. Our general philosophy and practice is to target our executive's overall compensation to be at approximately the market median for our peer group. This benchmarking indicated that the total direct compensation for our President and Chief Executive Officer and Chief Financial Officer for fiscal year 2012 were at the 17th and 30th percentile, respectively, of our peer group. The Committee considered this benchmarking information as one consideration in making the fiscal year 2012 compensation decisions reflected below, primarily to determine whether compensation paid to Named Executive Officers, in light of company and individual performance, is at, above or below the median of executive compensation among the Company's peer group.

Compensation Risk

As part of its oversight of our compensation policies, the Committee considers the incentives created by our executive compensation program and the impact that our compensation policies could have on our overall risk profile. In addition, the Committee annually reviews our compensation policies and procedures to determine whether they create risks that are reasonably likely to have a material adverse effect on Peregrine. Based on its latest review, the Committee has concluded that our compensation policies and procedures do not create such risks.

Summary

The Committee believes Peregrine's compensation programs are designed and administered in a manner consistent with its compensation philosophy and objectives. We monitor these programs in recognition of the dynamic marketplace in which Peregrine competes for talent. Peregrine intends to continue to emphasize pay-for-performance and equity-based incentive programs that reward executives for actual results and that are consistent with stockholder interests.

Overview of Employment Agreements and Potential Payments Upon Termination or Change-in-Control

Employment Agreements

On March 18, 2009, we entered into two-year employment agreements with Mr. Steven W. King and Mr. Paul J. Lytle, and one-year employment agreements with Mr. Joseph S. Shan and Dr. Shelley P.M. Fussey. Each of the aforementioned employment agreements renew automatically for additional one-year terms unless either party gives written notice of such party's intent not to renew the employment agreement at least 90 days prior to the commencement of the next year's period.

Each employment agreement provides that the executive officer must devote his or her full business time to the performance of services to the Company. In addition, each executive officer has agreed to maintain the confidentiality of the Company's proprietary information, and that all work product discovered or developed by him or her in the course of his or her employment belongs to the Company. Each executive officer has further agreed that he or she will not (i) compete with the Company, directly or indirectly, during the course of such executive's employment within the United States or any foreign country in which the Company has done business or has actually investigated doing business or where its products are sold or distributed, or solicit Company employees or customers during the course of employment and for a period of one year following the termination of such executive's employment.

The Company has the right to terminate each executive's employment for "cause" if such executive (a) breaches in any material respect or fails to fulfill in any material respect his or her fiduciary duty owed to Company; (b) breaches in any material respect his or her employment agreement or any other confidentiality or non-solicitation, non-competition agreement with the Company; (c) pleads guilty to or is convicted of a felony; (d) is found to have engaged in any reckless, fraudulent, dishonest or grossly negligent misconduct, (e) fails to perform his or her duties to the Company, provided that he or she fails to cure any such failure within thirty (30) days after written notice from Company of such failure, provided further, however, that such right to cure shall not apply to any repetition of the same failure previously cured under the agreement; or (f) violates any material rule, regulation or policy of the Company that may be established and made known to Company's employees from time to time, including without limitation, the Company's employee handbook. If an executive is terminated for "cause", he or she shall have no right to receive any compensation or benefit under his or her employment agreement after such termination other than base salary and paid-time-off earned or accrued but unpaid as of the date of termination.

Payments Upon Termination Without Cause or Resignation for Good Reason

The following discussion describes the amounts that we would pay or provide to our Named Executive Officers or, as applicable, their beneficiaries under these employment agreements as a result of termination of employment in each of the following situations: termination without cause or resignation for good reason and termination following a change-in-control.

If we terminate Mr. King's or Mr. Lytle's employment without cause or the executive terminates his employment for "good reason", such executive is entitled to (i) continued base salary and group insurance benefits for a period of twelve (12) months, and (ii) the payment of any prorated target bonus. In addition, each of Mr. King and Mr. Lytle shall have a period of time equal to the lesser of two years following the date of such termination or until the original expiration date of the applicable option agreement to exercise any vested and outstanding stock options as of the date of such termination. If we terminate Mr. Shan's or Dr. Fussey's employment without cause or such executive terminates his or her employment for good reason, such executive shall be entitled to (a) continued base salary and group insurance benefits for a period of nine months, and (ii) the payment of any prorated target bonus. In addition, each of Mr. Shan and Dr. Fussey shall have a period of time equal to the lesser of twelve (12) months following the date of such termination or until the original expiration date of the applicable option agreement to exercise any vested and outstanding stock options as of the date of such termination. As to each of the foregoing executives, the payment of group insurance benefits shall be "grossed up" for all employee taxes at the applicable state and federal bonus rates. An executive's receipt of the foregoing severance benefits shall be conditioned upon such executive's execution of a general release of known and unknown claims in favor of the Company and its affiliates.

Each executive's employment agreement defines "good reason" as (a) the Company relocates executive's principal place of work to a location more than fifty (50) miles from the original location, without the executive's prior written approval; (b) the executive's position and/or duties are modified so that his or her duties are no longer consistent with the executive's title; or (c) the executive's annual base salary and related benefits, as adjusted from time to time, are reduced without his or her written authorization.

The following table sets forth the potential payments to Messrs. King, Lytle, Shan and Dr. Fussey assuming a termination without cause or resignation for good reason with estimated benefits calculated as if the termination occurred on or about April 30, 2012:

Named Executive Officer	Base Salary (\$)⁽¹⁾	Target Bonus (\$)⁽²⁾	Group Benefits (\$)⁽³⁾	Total (\$)
Steven W. King	429,000	257,400	46,826	733,226
Paul J. Lytle	325,812	130,325	46,826	502,963
Shelley P.M. Fussey	210,375	98,175	10,314	318,864
Joseph S. Shan	195,000	91,000	35,120	321,120

- (1) For Mr. King and Mr. Lytle, represents payment of base salary for a period of 12 months and for Dr. Fussey and Mr. Shan for a period of 9 months.
- (2) The payment of a Target Bonus to the Named Executive Officers is at the sole discretion of the Company's Board of Directors. Amount includes the maximum proposed Target Bonus as a percentage of base salary established for fiscal year 2012 for each Named Executive Officer as follows: Mr. King – 60%; Mr. Lytle – 40%; Dr. Fussey – 35%; and Mr. Shan – 35%.
- (3) Represents estimated payment to reimburse executive's monthly benefits premiums for continued group health, dental, and vision benefits in addition to premiums for long-term disability and term life insurance, grossed up at an assumed combined state and federal bonus tax withholding rate of 41.88% for Mr. King, Mr. Lytle, and Mr. Shan, and a federal bonus tax withholding rate of 30.65% for Dr. Fussey. Amounts were calculated based on current premiums paid for executive's benefits grossed up for estimated applicable taxes.

In the event of a change-in-control, if Mr. Shan's or Dr. Fussey's (i) employment is terminated other than for cause within three (3) months prior or twelve (12) months following a change-in-control, or (ii) such executive terminates his or her employment for good reason within twelve (12) months following a change-in-control, the executive shall be paid a lump sum amount equal to (i) twelve months' base salary then in effect, (ii) one hundred percent (100%) of such executive's target bonus, and (iii) payment of group insurance benefits ("grossed up" for all employee taxes at the applicable state and federal bonus rates) for the twelve month severance period. An executive's receipt of the foregoing severance benefits shall be conditioned upon such executive's execution of a general release of known and unknown claims in favor of the Company and its affiliates.

The following table sets forth the potential payments to Messrs. King, Lytle, Shan and Dr. Fussey assuming a termination without cause or resignation for good reason in connection with a change-in-control, with estimated benefits calculated assuming the change-in-control and termination of employment occurred on or about April 30, 2012:

Named Executive Officer	Base Salary(\$)⁽¹⁾	Target Bonus (\$)⁽²⁾	Stock Option Acceleration (\$)⁽³⁾	Group Benefits (\$)⁽⁴⁾	Total (\$)
Steven W. King	1,287,000	257,400	-	140,479	1,684,879
Paul J. Lytle	651,624	130,325	-	93,653	875,602
Shelley P.M. Fussey	280,500	98,175	-	13,751	392,426
Joseph S. Shan	260,000	91,000	-	46,826	397,826

- (1) Represents payment of base salary for a period of 36 months for Mr. King, 24 months for Mr. Lytle, and 12 months for Dr. Fussey and Mr. Shan.
- (2) The payment of a Target Bonus to the Named Executive Officer is at the discretion of the Company's Board of Directors. A Target Bonus is equal to a percentage of the Named Executive Officer's annual base salary as follows: Mr. King – 60%; Mr. Lytle – 40%; Dr. Fussey – 35%; and Mr. Shan – 35%. The above assumes that the Board of Directors authorized the payment of the full Target Bonus to each executive for the fiscal year.
- (3) No potential payments are shown in this column as the closing market price per share of our common stock on April 30, 2012 of \$0.47 is less than the per share exercise price of the unvested stock options subject to accelerated vesting in connection with a change-in-control.
- (4) Represents estimated payment to reimburse executive's monthly benefits premiums for continued group health, dental, and vision benefits in addition to premiums for long-term disability and term life insurance, grossed up at an assumed combined state and federal bonus tax withholding rate of 41.88% for Mr. King, Mr. Lytle, and Mr. Shan, and a federal bonus tax withholding rate of 30.65% for Dr. Fussey during the severance period of 36 months for Mr. King, 24 months for Mr. Lytle, and 12 months for Dr. Fussey and Mr. Shan. Amounts were calculated based on current premiums paid for executive's benefits grossed up for estimated applicable taxes.

Payments upon Death or Disability

In the event of the death or disability, as defined in the employment agreements, of Messrs. King, Lytle, Shan or Dr. Fussey, the Company will not pay any further compensation or benefits after such event other than the payment by the Company of group insurance benefits previously provided to Messrs. King, Lytle, Shan and Dr. Fussey for a period of twelve (12) months, in the case of Mr. King and Mr. Lytle, and nine (9) months, in the case of Mr. Shan and Dr. Fussey. Amounts were calculated based on current premiums paid for executive's benefits as follows:

Named Executive Officer	Group Benefits (\$)
Steven W. King	27,216
Paul J. Lytle	27,216
Shelley P.M. Fussey	7,152
Joseph S. Shan	20,412

Payments upon Executive's Voluntary Resignation with Extended Notice Period

In the event that either Mr. King or Mr. Lytle voluntarily resign, and in connection therewith he provides ninety (90) days advance written notice (the "Extended Notice Period") to the Company, the Company will pay his base salary then in effect and shall continue to provide other contractual benefits including group insurance benefits during the Extended Notice Period and for a period of nine (9) months in the case of Mr. King and six (6) months in the case of Mr. Lytle after the Extended Notice Period provided he makes himself telephonically available to the Board of Directors and the Company's executive team for up to 2 hours per week.
