Item 2.05 Costs Associated with Exit or Disposal Activities.

On August 9, 2017, the Board of Directors (the “Board”) of Peregrine Pharmaceuticals, Inc. (the “Company”) approved, and management commenced, a restructuring plan designed to reduce operating costs and better position the Company to achieve overall profitability while it pursues strategic options for its research and development assets. Under this plan, which is expected to be completed in October 2017, the Company has reduced its overall workforce by 60 employees (or 20%). Affected employees have received notification and are eligible to receive severance payments based on years of service, contingent upon an affected employee’s execution (and non-revocation) of a separation agreement, which includes a general release of claims against the Company. The Company expects the reduction in workforce to result in a net cost savings of between \$3.7 million and \$4.3 million in fiscal year 2018 and more than \$7 million in reduced annualized operating costs beginning in fiscal year 2019.

In connection with the restructuring plan, the Company estimates that it will incur aggregate charges between \$1.1 million and \$1.7 million related to one-time termination benefits, including severance, and other employee related costs, all of which are expected to be incurred and paid during the second quarter of fiscal year 2018 ending October 31, 2017.

Item 8.01 Other Events.

On August 11, 2017, the Company announced the restructuring plan as described above in Item 2.05. A copy of the press release is attached hereto as Exhibit 99.1.

Peregrine Announces Measures to Reduce Costs, Facilitate Profitability and Strengthen its Operations

Reductions in R&D, manufacturing and administrative personnel

Anticipated annual cost savings of over \$7 million

Tustin, Calif., August 11 – Peregrine Pharmaceuticals, Inc. (Nasdaq: PPHM) today announced that it has reduced its overall workforce by 60 employees (or 20%) as part of its series of planned strategic actions to reduce costs and better position the Company to achieve overall profitability while it pursues strategic options for its research and development (R&D) assets. The Company expects the workforce reductions to result in a net cost savings of between \$3.7 million and \$4.3 million in fiscal year 2018 and more than \$7 million in reduced annualized operating expenses beginning in fiscal year 2019.

As part of the cost saving initiatives, the Company reduced Peregrine’s R&D personnel by 50% to 11 employees, with the remaining staff supporting potential strategic alternatives for its R&D assets while continuing to assist with collaborative trials, the antibody discovery platform, and the exosome program. Personnel supporting the Avid Bioservices CDMO business, a wholly owned subsidiary of Peregrine Pharmaceuticals, was reduced by 20% to 184 employees to align operations with the reduction in forecasted revenues. In addition, selling, general and administrative (SG&A) personnel was reduced by 8% to 49 employees as the Company continues to pursue leaner support operations. The charge to earnings for these personnel reductions will be between \$1.1 million and \$1.7 million, all of which is expected to be incurred during the second quarter of fiscal year 2018.

“While this was a difficult decision, our board and management team believe it was a necessary step as we continue to evaluate strategic options to further strengthen our two distinct businesses and seek to maximize shareholder value,” said Steven King, president, chief executive officer and director of Peregrine and president of Avid Bioservices. “I would like to personally express my appreciation to the affected employees for their commitment and meaningful contributions to the Peregrine and Avid businesses. We remain committed to capitalizing on long-term opportunities available to our CDMO business and pursuing the best path forward for our R&D business.”

Last month, Peregrine announced that as part of its strategic review it intends to expand its board of directors to add new members with CDMO and biologics experience and to commence a search for a dedicated president to head its Avid CDMO business.
