PROXY STATEMENT

THIS PROXY MATERIAL IS FIRST BEING MAILED TO STOCKHOLDERS
ON SEPTEMBER 8, 1998

ANNUAL MEETING OF STOCKHOLDERS
OCTOBER 13, 1998

INTRODUCTION

This Proxy Statement is being furnished in connection with the solicitation of proxies by the Board of Directors of TECHNICLONE CORPORATION, a Delaware corporation ("Techniclone" or the "Company"), for use at its 1998 Annual Meeting of Stockholders to be held on October 13, 1998, at 10:30 A.M. at The Atrium Hotel, 18700 MacArthur Boulevard, Irvine, California 92612.

This Proxy Statement and the accompanying BLUE PROXY CARD are being mailed to shareholders on or about September 8, 1998. The Company has retained the services of Corporate Investor Communications, Inc. ("CIC") to assist in soliciting proxies from brokers and nominees for the Annual Meeting. The estimated costs for these services is approximately \$15,000 and will be borne by the Company. These costs exclude salary and other incidental cost normally expended for solicitation of this proxy by officers and employees. It is contemplated that this solicitation of proxies will be made exclusively by mail; however, if it should appear desirable to do so in order to ensure adequate representation at the meeting, CIC, directors, officers and employees of the Company may communicate with stockholders, brokerage houses and others by telephone, telegraph or in person to request that proxies be furnished and may reimburse banks, brokerage houses, custodians, nominees and fiduciaries for their reasonable expenses in forwarding proxy materials to the beneficial owners of the shares held by them. All expenses incurred in connection with this solicitation shall be borne by the Company.

Holders of shares of Common Stock of the Company ("stockholders") who execute proxies retain the right to revoke them at any time before they are voted. Any proxy given by a stockholder may be revoked or superseded by executing a later dated proxy, by giving notice of revocation to the Secretary of the Company, 14282 Franklin Avenue, Tustin, California 92780-7017, in writing prior to or at the meeting or by attending the meeting and voting in person. Any stockholder, who holds stock in the name of a broker or other nominee, who desires to revoke a previously executed proxy or vote in person at the meeting must furnish or bring with them an original proxy, if such person has not yet voted at this meeting, or a copy of any proxy previously voted. A proxy, when executed and not so revoked, will be voted in accordance with the instructions given in the proxy. If a choice is not specified in the proxy, the proxy will be voted "FOR" the nominees for election of directors named in this Proxy Statement and "FOR" the approval of the issuance of Common Stock of the Company pursuant to a \$20,000,000 equity line of credit, to the extent such issuance could result in the Company's issuing more than twenty percent (20%) of the issued and outstanding Common Stock of the Company as of September 2, 1998, as such approval is mandated by the corporate governance requirements of the Nasdaq Stock Market.

VOTING SECURITIES

The Company has two classes of securities outstanding, common stock and preferred stock, however only the common stock (the "Common Stock") is entitled to vote at the meeting. Holders of Common Stock of the Company of record as of the close of business on September 2, 1998 (the "Record Date"), will be entitled to vote at the meeting or any adjournment or postponement thereof. As of August 7, 1998, there were

66,304,258 shares of Common Stock outstanding and entitled to vote. Each holder of shares of Common Stock is entitled to one vote for each share of Common Stock held as of the Record Date. Abstentions and broker non-votes are each included in the determination of the number of shares present and voting for the purpose of determining whether a quorum is present. Under Delaware law, the six (6) nominees receiving the highest number of votes will be elected as directors at the Annual Meeting. As a result, proxies voted to "Withhold Authority," which will be counted, and broker non-votes, which will not be counted, will have no practical effect. Under the General Corporation Law of the State of Delaware, with respect to votes cast on matters other than the election of directors that require the affirmative vote of a majority of the shares present and voting at the annual meeting, or the affirmative vote of a majority of the outstanding shares, abstentions and broker non-votes will have the same effect as votes against a proposal.

Stockholders are not entitled to cumulate their votes in the election of directors.

PROPOSAL ONE

ELECTION OF DIRECTORS

Directors are elected at each annual stockholders' meeting to serve until the next annual meeting or until their successors are elected. The Board of Directors proposes the election of six (6) directors at the Meeting. Unless authority to vote for directors has been withheld in the proxy, the persons named in the enclosed proxy intend to vote at the Meeting FOR the election of the nominees presented below. Hankin, as compensation for his services as a member of the Board of Directors, non-qualified options to purchase 100,000 and 150,000 shares of the Company's Common Stock at \$3.00 and \$1.59 per share, respectively, which were the fair market values at each date of grant. These options vest twenty-five percent (25%) on the date of grant and twenty-five percent (25%) annually thereafter. Under these agreements, Mr. Hankin waived his participation in the 1993 and 1996 Plans as a non-employee director. Options for 100,000 shares were repriced to \$.60 per share on March 2, 1998 in conjunction with the repricing

of stock options held by active employees, consultants and directors. (See Report of Compensation Committee).

Edward J. Legere II resigned from the Board of Directors of the Company on September 8, 1998. During the five years ended April 30, 1998, Edward J. Legere II was granted options under the formula grants for nonemployee directors and was granted options to purchase a total of 20,000 shares of the Company's Common Stock at prices ranging from \$.70 and \$4.63 per share, or the fair market value at the date of grant. The options vest as described in the related stock purchase plan documents. Options representing 15,000 shares were repriced to \$.60 per share on March 2, 1998 in conjunction with the repricing of stock options held by active employees, consultants and directors. (See Report of Compensation Committee). In addition, in April 1998, in conjunction with providing the Company with access to a \$2,000,000 line of credit with Biotechnology Development, Ltd. (BTD), an affiliate of Mr. Legere, BTD was granted a warrant to purchase 500,000 shares of the Company's common stock at \$1.00 per share.

Under a separate option agreement, in September 1998, the Company granted Mr. William C. Shepherd, as compensation for his services as a member of the Board of Directors, nonqualified options to purchase 250,000 shares of the Company's common stock at the closing price of the Company's common stock on September 8, 1998. The option vests twenty-five percent (25%) per year beginning September 8, 1999. Under this agreement, Mr. Shepherd waived his participation in the 1993 and 1996 Plans as a nonemployee director.

Under a separate option agreement, in August 1998, the Company granted Clive R. Taylor, M.D., Ph.D., as compensation for his services as a member of the Board of Directors and as a consultant to the Company, a nonqualified option to purchase 150,000 shares of the Company's Common Stock at \$1.41 per share, which was the fair market value at the date of grant. Options for 75,000 shares vest at twenty-five percent (25%) annually beginning August 3, 1999. The remaining 75,000 vest based on the achievement of various milestones to be determined at a future date. Under this agreement, Dr. Taylor waived his participation in the 1993 and 1996 Plans as a non-employee director. In addition, Dr. Taylor received \$28,550 during fiscal year 1998 for scientific professional fees.

Marc E. Lippman, M.D., resigned from the Board of Directors of the Company on February 25, 1998. Prior to Mr. Lippman's resignation, under a separate agreement, the Company agreed to grant Marc E. Lippman, M.D., as compensation for his services as a member of the Board of Directors a nonqualified option to purchase 100,000 shares of the Company's Common Stock at \$3.85 per share, which was the fair market value at the date of grant. This option vests twenty-five percent (25%) on the date of grant and twenty-five percent (25%) annually beginning October 27, 1998. Under this agreement, Dr. Lippman waived his participation in the 1993 and 1996 Plans as a non-employee director. Dr. Lippman did not exercise any shares granted as a member of the Board of Directors prior to his resignation and all shares were canceled 90 days after his date of resignation.

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Exchange Act requires the Company's directors and executive officers and persons who own more than ten percent (10%) of a registered class of the Company's equity securities to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. Officers, directors and greater than ten percent (10%) stockholders are required by regulations promulgated by the Securities and Exchange Commission to furnish the Company with copies of all Section 16(a) reports they file. Based solely on the review of copies of such reports furnished to the Company and written representations that no other reports were required, the Company believes that during the fiscal year ended April 30, 1998, the Company's officers, directors and all persons who own more than ten percent (10%) of a registered class of the Company's equity securities complied with all Section 16(a) filing requirements, with the following exceptions: Reports covering transactions during the fiscal year ended April 30, 1998, were filed late by Rockell H. Hankin and Edward J. Legere II and certain reports were initially erroneously filed stating that Ms. Elizabeth A. Gorbett-Frost sold shares of the Company's common stock. Subsequently, the reports were corrected to reflect the purchase rather than the sale of common stock by Ms. Gorbett-Frost.

COMPENSATION OF EXECUTIVE OFFICERS

Larry O. Bymaster. On May 18, 1998, the Company entered into an Employment Agreement with Mr. Larry O. Bymaster. The employment agreement provides that Mr. Bymaster shall be employed as the Company's President and Chief Executive Officer for a two (2) year period commencing May, 1998 at an annual base salary

Mr. Bymaster's bonus will be based on performance targets established by the Board of Directors. The Company shall also pay, as additional compensation, the federal and state withholding tax due on the issuance of such stock. In the event of Mr. Moding's termination as a result of death or non-performance of duties, Mr. Moding shall be entitled to a severance payment equal to six (6) months salary, based on the average monthly salary earned by him during the prior twelve (12) months.

Jamie C. Oliver, Pharm.D. Dr. Oliver entered into an Employment Agreement with the Company effective July 21, 1997. The Employment Agreement provides for Dr. Oliver to be employed for twelve (12) months. On the first of each month, the Employment Agreement is extended for an additional one-month period so that, at the beginning of each calendar month, Dr. Oliver has twelve (12) months remaining on his Employment Agreement. Dr. Oliver was initially paid a salary of \$160,000, plus a one-time signing bonus of

\$10,000, and was entitled to reimbursement of various moving expenses not to exceed \$10,500. In March 1998, as a result of Dr. Oliver's promotion to Vice President of Clinical and Regulatory Affairs, his annual salary was increased to \$175,000. Dr. Oliver is eligible for certain fringe benefits offered by the Company. In the event of Dr. Oliver's termination without cause, Dr. Oliver shall receive twelve (12) months of severance pay. In May 1998, Dr. Oliver was granted a bonus, not to exceed \$30,000, for reimbursement of current and future legal fees related to a personal legal matter.

David R. Allen, Ph.D. Dr. Allen's services as an employee to Techniclone were terminated effective July 15, 1998. At that time, the Company entered into a consulting agreement with Dr. Allen, expiring in July 1999. Under the terms of the consulting agreement, Dr. Allen will receive \$10,000 per month through January 15, 1999 and \$500 per month for the period of January 16, 1999 through July 15, 1999 for providing radiolabeling services to the Company. Options granted and vested during his employment with the Company will expire ninety (90) days after expiration of the consulting agreement. During fiscal year 1998, Dr. Allen purchased 1,000 shares of the Company's common stock.

Kenneth Berger, Ph.D. Dr. Berger's services as an employee to Techniclone were terminated effective March 15, 1998. At that time, the Company entered into a termination agreement with Dr. Berger which provided for payment of \$11,667 per month through July 13, 1998, in exchange for Dr. Berger providing regulatory consulting services to the Company through July 13, 1998. Under the terms of the termination agreement, options granted and vested during Dr. Berger's employment with the Company will expire ninety (90) days after expiration of the termination agreement.

Lon H. Stone. Effective on November 1, 1994, the Company entered into an Employment Agreement with Lon H. Stone, then Chief Executive Officer of the Company. The Employment Agreement, which would have expired on December 11, 2000, provided for an annual base salary of \$250,000 plus an annual incentive bonus at the discretion of the Board of Directors of the Company. Mr. Stone resigned from his positions as Chief Executive Officer and Chairman of the Board in 1998 and his Employment Agreement provided that, in such circumstances, the Company pay an immediate cash severance benefit equal to twice the annual salary rate, vest all unexercised outstanding stock options, and pay (issue) the option stock at no cost to Mr. Stone, along with any applicable federal and state payroll withholding taxes on the option stock. The Company did not have sufficient cash resources to fulfill its obligations under that agreement. Accordingly, at the direction of the Board of Directors, the Company negotiated a new Severance Agreement with Mr. Stone to conserve its cash. The new Severance Agreement provides for Mr. Stone to be paid \$300,000 a year for the period beginning March 1, 1998 through March 1, 2000. Unexercised and unvested outstanding stock options on March 1, 1998, will vest and be paid (issued) as follows: one-third of the unexercised, unvested options outstanding on March 1, 1998 will vest immediately and be paid to Mr. Stone on December 31, 1998; one-third of the unexercised, unvested and outstanding options on March 1, 1998, will vest on March 1, 1999 and be paid on December 31, 1999; and one-third of the unexercised, unvested and outstanding options on March 1, 1998, will vest and be paid on March 1, 2000. In addition, the Company will make appropriate tax withholding payments to the appropriate taxing authorities. During the period beginning on March 1, 1998 and ending on March 1, 2000, Mr. Stone will, with certain exceptions, be eligible for Company benefits. Pursuant to the Severance Agreement, Mr. Stone must be available to work for the Company for up to twenty-five (25) hours per week. In addition, as part of Mr. Stone's agreement to modify his existing severance package, the Company agreed that if Mr. Stone does not compete with the Company during the period beginning March 1, 1998 and ending February 29, 2000, the Company will, on March 1, 2000, pay Mr. Stone an amount equal to his Note of \$350,000, plus all accrued interest thereon. The proceeds of which will then be used to retire the note receivable plus accrued interest.

The following table sets forth the compensation earned by the former Chief Executive Officer, the former interim Chief Executive Officer, three officers whose compensation for the 1998 fiscal year was in excess of \$100,000 and two former officers of the Company whose compensation exceeded \$100,000 for the 1998 fiscal year, for services rendered in all capacities to the Company for each of the last three fiscal years. All the individuals named in the table will hereinafter be referred to as the "Named Officers."

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER TRADING

The following non-employee directors serve on the Compensation Committee of the Board of Directors: Rockell N. Hankin, Chairman, Carmelo J. Santoro, Ph.D. and Clive R. Taylor, M.D., Larry O. Bymaster, the Company's President and Chief Executive Officer, is an ex-official member of the Compensation Committee. Such ex-official status does not entitle him to vote on matters submitted to the Compensation Committee. There are no interlocks of executive officers or board members of the Company serving on the compensation committee or equivalent committee of another entity which has any director or executive officer serving on the Compensation Committee, other committees or Board of Directors of the Company.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee is a standing committee of the Board of Directors of the Company. Carmelo J. Santoro and Edward J. Legere II were the members of the Compensation Committee during the fiscal year ended April 30, 1998. On July 27, 1998, Mr. Rockell N. Hankin and Clive R. Taylor, non-employee directors of the Company were added to the Committee and Mr. Edward J. Legere II resigned from the Committee on September 8, 1998, in conjunction with his resignation as a member of the Board of Directors. The Compensation Committee is responsible for adopting and evaluating the effectiveness of compensation policies and programs for the Company and for making determinations regarding the compensation of the Company's executive officers, subject to review by the full Board of Directors.

The following report is submitted by the members of the Compensation Committee with respect to the executive compensation policies established by the Compensation Committee and compensation paid or awarded to executive officers for the year ended April 30, 1998.

Compensation Policies and Objectives. The Compensation Committee determines the Chief Executive Officer's compensation and the compensation of all executive officers by taking into consideration (i) what other chief executive officers and executive officers in the industry receive as compensation, (ii) the liquidity position of the Company, (iii) what the Company can afford to pay and (iv) available alternative sources of compensation such as incentive stock options. As the Company has a history of operating losses, no specific

relationship of the Company's financial performance was used in determining the executive officer's compensation. The Compensation Committee took into consideration the compensation of executive officers of similar companies within the industry for consideration of executive salaries. In addition, the Board utilized the J. Robert Scott, Coopers & Lybrand Executive Salary Survey in making its decision with respect to the Chief Executive Officer's compensation. While the Compensation Committee considers the salary of other executive officers in the industry important in the consideration of its decision with respect to the executive officer's compensation, the controlling factors were the liquidity of the Company and compensation requirements to recruit and retain the necessary officers. None of the other executive officers of the Company receive compensation for fulfilling their duties as officers.

Stock Options and Equity-Based Programs. In order to align the financial interests of executive officers and other key employees with those of the stockholders, the Company grants stock options to its directors, executive officers and other key employees on a periodic basis. Moreover, the Compensation Committee generally has followed the practice of granting options on terms which provide that the options become exercisable in cumulative annual installments, generally over a three to four year period. The Compensation Committee believes that these features of the option grants not only provide an incentive for directors to serve the Company and for executive officers and other key employees to remain in the employ of the Company, but also make the Company's earnings performance and longer term growth in share prices important for the executives who receive stock options.

Stock Option Plans. The Company has five stock option plans, (i) the 1982 Stock Option Plan (the "1982 Plan"), (ii) the Incentive Stock Option, Nonstatutory Stock Option and Restricted Stock Purchase Plan -- 1986 (the "1986 Plan"), (iii) Incentive Stock Option and Nonqualified Stock Option Plan -- 1993 (the "1993 Plan"), (iv) the Cancer Biologics Incorporated, Incentive Stock Option, Nonqualified Stock Option and Restricted Stock Purchase Plan -- 1987 (the "CBI Plan") and (v) the 1996 Stock Incentive Plan (the "1996 Plan"). The purpose of the Plans is to enable the Company to attract and retain directors, employees and consultants of ability and to motivate such persons to use their best efforts on behalf of the Company and its subsidiaries by providing them with equity participation in the Company. Pursuant to the 1982 Plan, 450,000 shares of Common Stock were reserved for issuance upon the exercise of options granted to key officers, directors, consultants and employees. Pursuant to the 1986 Plan, 500,000 shares of Common Stock were reserved for issuance upon the exercise of options granted to key employees, officers and directors of the Company. Pursuant to the CBI Plan, 2,000,000 shares of Common Stock were reserved for issuance upon exercise of options. Pursuant to the 1993 Plan, 750,000 shares of Common Stock are reserved for issuance upon the exercise of options to directors, employees and consultants of the Company. Pursuant to the 1996 Plan, upon approval of the Plan, 4,000,000 shares of Common Stock were initially reserved for issuance upon the exercise of options. In addition, the shares reserved for issuance under the 1996 Plan are automatically increased at the end of each fiscal year by twenty percent (20%) of any increase (other than any increase due to stock awards under any of the Plans) in the number of authorized and issued shares above 20,869,675 (the number of authorized and issued shares at September 27, 1996). At April 30, 1998, the number of shares for which options may be granted under the 1996 Plan increased to 9,432,862. Certain options granted under the 1986 Plan, the 1982 Plan, the CBI Plan, the 1993 Plan and the 1996 Plan are intended to qualify as "incentive stock options" within the meaning of Section 422A of the Internal Revenue Code of 1986. At April 30, 1998, stock options to purchase 444,000 shares had been granted under the 1982 Plan, of which none remain outstanding, stock options to purchase 486,000 shares had been granted under the 1986 Plan, of which 310,000 shares remain outstanding, stock options to purchase 1,972,000 shares had been granted under the CBI Plan and assumed by the Company, of which 806,000 shares remain outstanding, stock options to purchase 721,205 shares had been granted under the 1993 Plan, of which 512,500 shares remain outstanding and stock options to purchase 3,519,909 shares had been granted under the 1996 Plan, of which 2,848,826 shares remain outstanding. The 1982, 1986 and CBI Plans have been terminated by the Board of Directors with respect to the grant of additional options under such Plans. The CBI Plan was assumed by the Company in connection with the merger of Cancer Biologics Incorporated with and into the Company.

During the fourth quarter of the fiscal year ended April 30, 1998, the Company restructured its business operations, and in an effort to conserve its cash resources, terminated several employees. During this period of

time, the stock price of the Company declined dramatically and there was minimal incentive for the remaining employees to remain with the Company, as the incentive options they had been granted were priced well in excess of the fair value of the Company's common stock and as the financial position of the Company was precarious and its survival was uncertain. As such, the Board of Directors authorized the repricing of all outstanding stock options for active employees, consultants and directors. The Board of Directors approved the repricing because it believes that equity interests are a significant factor in the Company's ability to retain directors, executive officers and employees, by providing an incentive to all optionees to devote their utmost effort and skill to the advancement and betterment of the Company by permitting them to participate in the success and increased value of the Company. As a result of the termination of several of the Company's employees, the decline in the Company's stock price, the Company's precarious financial position and the decline in the morale of its personnel, the Compensation Committee and the Board of Directors believed that in order to retain the active key employees, consultants to the Company and non-employee directors, the Company was required to reprice the exercise price of all outstanding stock options to the then current market value of \$.60. Accordingly, on March 2, 1998, the Board of Directors approved the repricing of 3,219,659 options granted pursuant to the Company's 1986, 1993 and 1996 Stock Option Plans, including an aggregate of 1,521,250 options granted to the Named Officers, and an aggregate of 685,000 options granted to members of the Board of Directors. Such repricing was effected by offering to exchange new options with an exercise price of \$.60 per share for the options then held by such optionees. The repricing was effective immediately.

The 1982, 1986, CBI Plan, 1993 and 1996 Plans are administered by the Compensation Committee which determines the terms of options granted under the Plans, including the exercise or purchase price, conditions of purchase (including repurchase rights in favor of the Company), number of shares subject to the option or right and the exercisability thereof. Except with respect to the 1996 Plan, the exercise price of all options granted under the Plans must be at least equal to the fair market value of such shares on the date of grant. The maximum term of each option is ten years.

No options were granted to or exercised by officers or directors during the year ended April 30, 1998, under the 1982 Plan.

No options were granted or exercised by officers or directors during the year ended April 30, 1998, under the 1986 Plan. Options to purchase 310,000 shares are outstanding under the 1986 Plan, all of which were exercisable as of April 30, 1998. Options outstanding under the 1986 Plan expire at various dates through 2003.

No options were granted or exercised by officers or directors during the year ended April 30, 1998, under the CBI Plan. Options to purchase 806,000 shares are outstanding under the CBI Plan, all of which were exercisable as of April 30, 1998. Options outstanding under the CBI Plan expire in 2003.

No options were exercised by officers or directors during the year ended April 30, 1998, under the Company's 1993 Plan. During the year ended April 30, 1998, R.C. Shepard and Edward J. Legere II were granted "formula grants" under the 1993 Plan to purchase 2,000 shares of Common Stock of the Company. Mr. Shepard did not stand for re-election as a director at the 1997 annual meeting and his options expired unexercised. These grants vest twenty percent (20%) on the first anniversary of the date of grant and 1/60 of the remaining amount each month thereafter. Options to purchase 512,500 shares are outstanding under the 1993 Plan. Options outstanding under the 1993 Plan expire at various dates through 2007.

No options were exercised by officers or directors during the year ended April 30, 1998 under the 1996 Plan. During the year ended April 30, 1998, Dr. Jamie Oliver, Vice President of Clinical and Regulatory Affairs, was granted an option to purchase 100,000 shares under the 1996 Plan. Stock options granted to Dr. Oliver vest twenty-five percent (25%) beginning in July 1998 and twenty-five percent (25%) annually thereafter. Thomas R. Testman, former Interim Chief Executive Officer, was granted an option to purchase 50,000 shares under the 1996 Plan. Stock options granted to Mr. Testman vested on the date of grant (March 1, 1998). As of April 30, 1998 options to purchase an aggregate of 2,848,826 shares were outstanding under the 1996 Plan, of which 967,751 were exercisable.

On January 17, 1997, the Company loaned Lon H. Stone, former Chairman of the Board of Directors and former Chief Executive Officer of the Company, \$350,000 pursuant to a Promissory Note. The highest loan balance during the year ended April 30, 1998, was \$381,464 which included principal and accrued interest. The purpose of the loan was to provide Mr. Stone with the additional cash necessary to purchase a new residence. The Board of Directors, including the Compensation Committee, determined that the loan was in the best interests of the Company and, with Lon Stone abstaining, unanimously approved it. The Note is collateralized by real estate and bears interest at seven percent (7%) per annum. The original Note and interest thereon were due and payable on January 31, 2000. In conjunction with the renegotiation of a new Severance Agreement with Mr. Stone, the Company agreed that if Mr. Stone did not compete with the Company during the period beginning March 1, 1998 through February 29, 2000, the Company would, on March 1, 2000, pay Mr. Stone an amount equal to this Note of \$350,000 plus all accrued interest thereon, the proceeds of which will then be used to retire the Note.

On April 30, 1997, the Company requested that Mr. Moding exchange \$203,500 of non-interest bearing outstanding notes which Mr. Moding had executed and delivered to the Company, to pay for options exercised under the Company's stock option plans. The Company's option plans, which have been approved by stockholders, provide that a purchaser's promissory note may be used to exercise options. The original notes were executed and delivered by Mr. Moding in connection with the exercise of options. At the Company's request, Mr. Moding agreed to, and did exchange two non-interest bearing notes with maturity dates at April 30, 1999, for two new notes aggregating \$203,500. The notes are secured by both personal assets of Mr. Moding and 204,000 shares of the common stock of the Company held by Mr. Moding. The new notes bear interest at six percent (6%) per annum and are payable in seven (7) equal annual installments beginning April 30, 1998. On April 29, 1998, the first annual installment of \$36,672, including principal and interest, was made and the remaining principal balance at April 30, 1998, was \$179,379.

On April 30, 1997, the Company requested that Mr. Shepard, a previous director of the Company, exchange \$203,083 of non-interest bearing outstanding notes which Mr. Shepard had executed and delivered to the Company, to pay for options exercised under the Company's stock option plans. The Company's option plans, which have been approved by stockholders, provide that a purchaser's promissory note may be used to exercise options. The original notes were executed and delivered by Mr. Shepard in connection with the exercise of options. At the Company's request, Mr. Shepard agreed to, and did exchange two non-interest bearing notes with maturity dates at April 30, 1999, for two new notes aggregating \$203,083. The notes are secured by both personal assets of Mr. Shepard and 203,000 shares of the common stock of the Company held by Mr. Shepard. The new notes bear interest at six percent (6%) per annum and are payable in seven (7) equal annual installments beginning April 30, 1998. On April 29, 1998, the first annual installment of \$36,596, including principal and interest, was made and the remaining principal balance at April 30, 1998, was \$179,011.

In April 1998, through a private placement, the Company sold 1,120,065 shares of restricted common stock for proceeds of \$625,000. Of the restricted shares issued, 84,034 shares were sold to Elizabeth A. Gorbett-Frost on equal or less favorable terms than the other participants in the offering. In conjunction with the private placement, the Company granted warrants to purchase 280,015 shares of its common stock at \$1.00 per share, of which 21,008 warrants were granted to Ms. Gorbett-Frost. The warrants expire in April 2001.

In April 1998, the Company entered into a line of credit commitment with LTD, an entity controlled by Mr. Legere. The line of credit commitment with LTD provided for borrowings of up to \$2,000,000 under a line of credit that expired on May 31, 1998. Under the terms of the agreement, even though the Company did not borrow under the agreement, the Company issued LTD a warrant to purchase 500,000 shares of the Company's common stock for \$1.00 per share.

PROPOSAL TWO

APPROVAL OF ISSUANCE OF SHARES UNDER THE EQUITY LINE

INTRODUCTION

For the reasons set forth below, the Board of Directors believes that the best interest of the Company and its stockholders will be served by approving the issuance of the full number of shares of Common Stock which would be issuable under the Common Stock Equity Line Subscription Agreement ("Equity Line") to the extent that such issuance could result in the Company issuing more than 20% of the issued and outstanding Common Stock of the Company as of August 7, 1998.

In June 1998, the Company secured access to a \$20,000,000 Equity Line with two institutional investors, expiring in June 2001. Under the terms of the Equity Line, the Company may, in its sole discretion, and subject to certain restrictions, periodically sell ("Put") shares of the Company's common stock for up to \$20,000,000 upon the effective registration for resale of the Put shares. After effective registration of the Put shares, unless an increase is otherwise agreed to, \$2,250,000 of Puts can be made every quarter, subject to share issuance volume limitations identical to those set forth in Rule 144(e). At the time of each Put, the investors will be issued a warrant, expiring on December 31, 2004, to purchase up to 10% of the amount of common stock issued to the investor at the same price at the time of the Put.

The Equity Line provides for immediate funding of \$3,500,000 in exchange for 2,545,454 shares of common stock (Equity Line Shares) and the issuance of a warrant, expiring on December 31, 2004, to purchase 254,546 shares of Common Stock at an exercise price of \$1.375. One-half of this amount is subject to adjustment at three months after the effective date of this Registration Statement with the second half subject to adjustment six months after such effective date of this Registration Statement. At each adjustment date, if the market price ("Adjustment Price") is less than the initial price paid for the Equity Line Shares, the Company will be required to issue additional Equity Line Shares equal to the difference between the amount of shares which were issued and the number which would have been issued by dividing \$1,750,000 by the Adjustment Price. Future Puts under the Equity Line will be priced at a 15% discount on the 10 day low closing bid price. In addition, on June 16 of each of the next three years, the Company is obligated to issue a warrant to the investors to purchase a number of shares of Common Stock equal to 10% of an amount equal to the difference of the relevant minimum commitment amount (\$6,666,667 for 1999, \$13,333,333 for 2000 and \$20,000,000 for 2001) minus the aggregate amount of Common Stock sold to the investors during all years preceding June 16 of such year, divided by the 10 day low closing bid price of the Common Stock on such date, at an exercise price equal to the 10 day low closing bid price of the Common Stock on such date. All of the Equity Line Shares and related Warrants issued are registerable shares.

To obtain strategic funding for the Company as it continues its clinical trial programs, the Company entered into the Equity Line agreement. To continue its clinical trial programs, the Company will be required to draw additional amounts under the Equity Line or obtain additional financing through a licensing or partnering arrangement for one or more of its technologies, or through additional equity financings or issuance of debt.

For companies listed on the Nasdaq Stock Market, the National Association of Securities Dealers, Inc., requires stockholder approval, if the listed company issues more than 20% of the Company's outstanding shares of common stock and voting power in connection with a transaction (the "Cap Amount"). At the effective date of the Equity Line, the Company did not issue more than 20% of its outstanding Common Stock

and does not expect that it will be required to do so in the future as it relates to the immediate funding or subsequent Puts. However, should the Company be unable to obtain alternative sources of financing and should the Company's price of its Common Stock decline significantly at about the same time it needed to draw on the Equity Line, the Put of additional amounts to the investors in the Equity Line may result in the issuance by the Company of more than 20% of the Company's outstanding Common Stock. Access to funds either through the Equity Line, a licensing or partnering arrangement, additional equity financings and or the issuance of debt are required for the Company to continue its operations.

VOTE REQUIRED FOR THE APPROVAL OF ISSUANCE OF COMMON STOCK IN CONNECTION WITH THE EQUITY LINE

The affirmative vote of the holders of a majority of the outstanding shares of the Company entitled to vote will be required for approval of the issuance of Common Stock in excess of 20% of the outstanding shares, in connection with the Equity Line. The affirmative vote of the holders of a majority of the shares present or represented by proxy and entitled to vote at the Annual Meeting on this proposal will constitute approval of such issuance in connection with the Equity Line. Accordingly, abstentions and broker non-votes will have the same effect as votes against the proposal. Proxies solicited by management will be voted FOR approval of the issuance in connection with the Equity Line.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" APPROVAL, FOR THE PURPOSES OF THE CORPORATE GOVERNANCE REQUIREMENTS OF THE NASDAQ STOCK MARKET'S NATIONAL MARKET, OF THE ISSUANCE OF COMMON STOCK OF THE COMPANY TO THE EXTENT SUCH ISSUANCE COULD RESULT IN THE COMPANY ISSUING MORE THAN TWENTY PERCENT (20%) OF THE ISSUED AND OUTSTANDING COMMON STOCK OF THE COMPANY AS OF AUGUST 7, 1998 IN CONNECTION WITH THE \$20,000,000 EQUITY LINE.
